BAR PROMISES AID TO HOOVER

Pledge Given as Convention
Opens in Tennessee

Newlin, Presiding, Speaks
for National Body

Four Thousand Attendance
Sets New Record

MEMPHIS (Tenn.) Oct. 23. (Ex-
clusive)—Pledging unqualified sup-
port to the campaign of President
Hoover in his search for a remedy
for existing evils and to the pro-
tection of the public against law-
less law enforcement, Gurney E.
Newlin of Los Angeles, president of
the American Bar Association, opened
the fifty-second annual conven-
tion here today before 4000 mem-
bers. This is the largest number
ever to attend a national conven-
tion of the association.

"This bar association," said Mr.
Newlin, "is pledged to aid President
Hoover in grappling with the alarm-
ing disobedience to law, the abuse
of its enforcement and the growth
of organized crime."
"If we are to continue as a law-
abiding nation we must enforce the
law of the land through lawful
methods."

UNJUSTIFIED METHODS
"No law, however just, can jus-
tify lawless enforcement," Newlin
continued. "The resort to lawless-
ness in enforcing or seeking to en-
force the law is more than casual;
in fact, it tends to be habitual. The
question reaches the deep founda-
tion of the law upon which the re-
public is built—salus populi su-
perna lex."

"It is a tradition of justice that
the use of torture in order to get
confessions is contrary to law and
cannot be tolerated in a free com-
monwealth."
"Raiding homes without warrants
is a direct violation of the law orig-
inating in the Magna Charta and
reaffirmed in the Constitution."
"This bar association pledges to
work toward the end that all laws
may be placed on a parity and one
law may not be sacrificed or vio-
lated for the purpose of enforcing
another."

OTHER SPEAKERS
Other speakers were Edgar W.
Camp of Los Angeles and Dr. Walter
C. Simmons of Germany, former
Chief Justice of the Reich, and
Premier of Prussia.

Dr. Simmons traced the political
creation of the German republic
and declared it is the purpose of its
makers to pattern the new move-
ment largely after that of the
United States. He minutely traced
the history of the German republic
and of its courts from the war-torn
days of the founding republic that
was held together under the iron
hand of President Ebert against the
attacks of Imperialists and radicals
up to the present time.

The forcing of confessions by
"third degree" methods continues
because too often police and detec-
tives are of a low intelligence stand-
ard and are not too keen for work,
was the opinion expressed by Mr.
Camp.

"THIRD DEGREE" HIT
"Pay and the conditions under
which the police have to work do not
attract a rule, high-grade
man," Mr. Camp said. "They accord-
ingly choose the easiest way to ob-
tain admissions and confessions. To
obtain confessions by this means is
the easiest way for men not espe-
cially intelligent, or not too keen
for work."

Adoption of "lawless methods of
law enforcement" by police is due to
five adverse conditions which Ameri-
can police must face, according to
Mr. Camp. He gave the conditions
as heterogeneity of population, pro-
hibition by law of acts not else-
where forbidden, lack of any system
of registration and identification of
population, general lawlessness of
the American people and the un-
certain, cumbersome characteristics
of American criminal procedure.

"We have no common language
or ideas, no feeling of kinship, no
common traditions," Mr. Camp said.
"And the presence of large groups of
colored persons among the whites
creates peculiar problems."

**Coast Company
Given Federal
Plane Contract**
By a "Times" Staff Correspondent
WASHINGTON, Oct. 23. (Exclu-
sive)—The War Department today
announced an \$83,014 contract for
airplanes with the Douglas Aircraft
Corporation of Santa Monica, Cal.
The contract covers thirty-six
model O-25-A observation planes
with Curtis GIV motors and thirty
model O-32-A observation training
planes with Pratt and Whitney
Wasp motors.

OPIUM TIN DISPLAYED IN SENATE

Bleese Charges "Dope"
Can be Bought in City;
Capital Police Chief Hit

WASHINGTON, Oct. 23. (AP)—A
container of opium was shown in
the Senate today by Senator Bleese,
Democrat, South Carolina, as
"tangible proof" that "dope" is be-
ing sold in Washington.

Other than to say that it was sold
"in the shadow of the Capitol,"
Bleese did not explain how the
opium was obtained. The contain-
er was turned over to Senator
Copeland, Democrat, New York, a
physician, for use in an investiga-
tion of the Washington police de-
partment by the District of Colum-
bia Committee of the Senate, of
which Copeland is a member.

Bleese accused Maj. Henry G.
Pratt, superintendent of Washing-
ton police, of trying to discredit
himself by trying to get rid of the
opium. He said that the police de-
partment was trying to get rid of
the opium by selling it to the
public. He said that the police de-
partment was trying to get rid of
the opium by selling it to the
public. He said that the police de-
partment was trying to get rid of
the opium by selling it to the
public.

JUROR TAKEN FROM BOX IN BANDIT CASE

Opposition to Capital
Punishment Causes Move;
Deal With State Discussed

LAMAR (Colo.) Oct. 23. (AP)—A
fourth prospective juror, who ex-
pressed opposition to capital pun-
ishment, was removed from the box
at the trial of Ralph Peagle, bank
bandit, by the State in District
Court today during the selection of
the twelve men to sit in his case.

In keeping with a ruling by the
court, no mention was made of the
"deal" made by Peagle and the
State, involving his confession,
whereby the State was not to de-
mand the death penalty when the
bandit came to trial.

Hugh D. Harper, chief of po-
lice at Colorado Springs, today had
in the courtroom two telegrams re-
ceived from prominent police offi-
cials in response to his query as to
the opinion of the police on the ques-
tion of the State keeping its promise
to Peagle. The telegrams may be
entered in the record of the case
by the defense.

A violation of the agreement with
Peagle by the State would be
"contemptible," a telegram from
August Vollmer of Berkeley, Cal.,
asserted. The wire pointed out
that the other police officers in the
nation will be made harder if the
agreement is not kept.

RICH GEMS SENT BACK TO VICTIM

Wife of Millionaire Who
Was Wounded by Bandit
Receives Stolen Jewels

CHICAGO, Oct. 23. (AP)—A small
pasteboard box wrapped in white
paper and containing stolen jew-
elry valued at \$50,000, today was
delivered to Mrs. Helen Perky,
wife of a Perky (Fla.) millionaire,
at the hospital where she is recover-
ing from a bullet wound inflicted
when the jewels were taken from
her.

A nurse said a man had given
her the package with instructions
to deliver it to Mrs. Perky. She
was unable to describe the man
satisfactorily.

Mrs. Perky and two friends were
returning from a race track on the
16th inst. when a car containing
two men forced their automobile
to the curb. The two men de-
manded her purse which contained
the jewelry. As she was slow in
complying one of the men appar-
ently became excited and fired,
wounding her in the jaw.

Peruvian Orator Reaches Capital

By a "Times" Staff Correspondent
WASHINGTON, Oct. 23. (Exclu-
sive)—With the arrival today of
Benigno Petit Leanos, Peruvian
spokesman for South America, the
number of Fourth International Ora-
torical Contest competitors already
in Washington was brought to five.
Participation in Saturday night's
forensic fray in Constitution Hall
are Roberto Ortiz Oris of Mexico;
Herbert Schumann of Germany;
Gabriel Pouche of France, and Roch
Pinard of Canada. Pouche and Pin-
ard reached Washington on the
same train yesterday although un-
known to each other.

EINSTEIN IDEA DUE FOR JOLT

Cleveland Scientist Ready to
Give Test Results

Doubts as to Presence and
Drift of Ether Upset

Findings to be Disclosed at
Ithaca Tomorrow

CLEVELAND, Oct. 23. (AP)—Re-
sults of experiments conducted in
a little shed on the campus of Case
School of Applied Science here by
Dr. Dayton C. Miller to refute a
contention of Dr. Albert Einstein
and show the presence of ether and
its drift through the earth will be
revealed at Ithaca (N. Y.) Friday, it
was announced today.

Dr. Miller will read his paper be-
fore the Optical Society of Ameri-
ca meeting at Cornell Univer-
sity. The experiments, con-
ducted by Dr. Miller, are of far-
reaching importance in the realm of
science and are in conflict with
some aspects of Einstein's relativity
theory.

PAST EXPERIMENTS
Dr. Miller, it has been revealed,
will say that his experiments here
bear out the results obtained in his
work at the laboratory at Mt.
Wilson observatory in 1925. At that
time many scientists were skeptical
of his evidence, and since then the
Cleveland scientist has labored for
greater accuracy in his instruments.

He uses the ether drift interferom-
eter which was developed by Prof.
Michelson and the late Prof. Edward
W. Morley.
First the experiments gave only the
"expected drift" and it was assumed
that this might have been due to
some imperfection. Einstein capitu-
lized on this negative result. Dr.
Miller persisted in his contention,
however.

HUGE SOVIET INDUSTRIAL AREA TO RISE

New \$300,000,000 City
Will be Built Close to
Great Electric Plant

MOSCOW, Oct. 23. (AP)—Details
were published today of plans for
a huge \$300,000,000 industrial cen-
ter to be built by the soviet gov-
ernment on the banks of the Don
or River adjoining a \$110,000,000
hydroelectric plant now being su-
pervised by Col. Hugh L. Cooper,
American waterpower engineer.

Equipment for factories, mills,
warehouses and railroads in the new
city which will be called Bolshoi
Zaporozhe, will be ordered largely in
the United States and will cost
\$100,000,000 while the cost of con-
struction will total \$200,000,000.

A large brick factory with an
output of 20,000,000 bricks a year
already has been completed while
two additional brick factories with
a combined capacity of 50,000,000
bricks annually, are under way. An
immense lime plant also is nearing
completion.

The plans as announced here call
for the construction of more than
100 large model workers' homes, ac-
commodating 20,000 employees.
Schools, hospitals, warehouses, work-
ers' clubs, railroads and sawmills
are expected to be finished some
time next year.

Light, heat and power for the new
city are to be supplied by the Dniep-
ropropol hydroelectric plant, one
temporary power station of which
is already in operation.

SERIOUS COLD KEEPS ALFONSO AT PALACE

SEVILLE (Spain) Oct. 23. (AP)—
King Alfonso is confined to the
royal palace here by a cold de-
scribed as serious. He has been
visiting the exposition here and
participating in many functions.

BITTER ANNUITY ROW GOES OVER

Reparation Problems Sent Back to Governments

Course Favored by Germany Adopted by Committee

Order Will Facilitate Work on Plans for Bank

(Copyright, 1929, by New York Times)
BADEN, Oct. 23. (Exclusive)—At a plenary session held today the committee organizing the bank for international settlements decided to refer the whole reparations payment question back to the governments and ultimately to the second Hague conference.

This important decision virtually eliminates for this conference the bitter annuity dispute which threatened seriously to disrupt the negotiations for the formation of an international bank. It constitutes broadly success for the German thesis that Germany's reparations payments shall be regulated solely upon the stipulations of the second Hague conference.

The plan and further interpretations of the Hague protocol as opposed to the French theory that a definite binding system of payments should be drawn up, including the small details in a legal agreement to be included in a trust deed between the powers and the bank.

The course favored by Germany was decided upon after a three weeks' battle over the two conflicting views, reported to the full committee that it was unable to reach an agreement. This trust committee is comprised of a representative of each of the seven nations at the conference, headed by Melvin Traylor of Chicago, who presided at the plenary session.

PROPOSAL OFFERED
The subcommittee started with a proposal to include in the trust agreement not only stipulations as to how the bank should administer and dispose of funds in its possession, but also accept the schedule of agreements between the bank and the debtor, showing exactly how these funds would come due. This theory was opposed, however, by the contention that an adjustment must be made in regard to property conceived as existent or assured and that in no event could the trust be concerned with how that property was derived.

This latter view became accepted by the bank's organizing committee through today's decision and the difference which has deadlocked the trust committee thereby is composed. This does not, however, mean a final defeat for France, since the fight is sure to be renewed in the more political atmosphere of the second Hague conference.

What actually is ordered by the committee here is that the trust committee should proceed on a different basis. The subcommittee is instructed to eliminate all questions of Germany's relations with the bank from consideration and to draw up a deed which would be an agreement merely between the bank and the creditor, powers which would regulate the bank's administration of funds it receives.

It further was instructed that in matters where the Young plan interpretation is not clear, it should refer to the governments for precise instructions which would be inserted in the trust agreement later.

FRENCH TENACIOUS
There is no doubt whatever but that these orders will facilitate greatly the work of the trust committee which now may be expected to advance rapidly with its report. It does not mean, either, that the bankers' committee will be deprived of any authority in regard to the reparations question, but that the French have removed from this conference a question to which its discussion never rightly pertained.

The French were tenacious in their view and there is no doubt that their amiable acceptance of the course taken today was largely due to the efforts of Chairman Traylor of the subcommittee in urging them to accept the business attitude that such clauses regarding reparations payments had no place in such a trust as a trust deed. As regards the document the subcommittee is now setting out to frame there are considerably fewer difficulties in sight. The nations agreed pretty thoroughly upon the manner in which the reparations payments are to be distributed and there are only technical details to be arranged. As to the machinery it should not be supposed that the bank will make debt payments directly to the United States. On the other hand, the system by which in name at least, will be preserved the American fiction of no relation between debts and reparations, is that the bank will receive sums from Germany and will apportion them to the credit of England, France, Italy and the others in New York, then England, France, Italy, etc., will order them transferred to the credit of the United States.

FIVE HELD FOR ROW IN BANK OVER CASH

SEATTLE, Oct. 23. (P)—A shot fired in a bank vault during a dispute over possession of an envelope containing fifteen \$1000 bills threw the financial district into an uproar and resulted in the arrest of five persons, three of them Chinese, here today. Barney Pullen, 34 years of age, the white man arrested, told Chief of Detectives Charles Tennant that the money was to have been used to purchase narcotics. With Pullen were arrested his wife Elsie, 32, of Vancouver, B. C.; Jimmie Louie, Chinese importer and exporter, and his two bodyguards, Louie Toy and Lee Mon.

WOMAN KIDNAPED, ROBBED AND FREED

SAN FRANCISCO, Oct. 23. (P)—Two men in an automobile here today drove up to the curb, seized Miss Maria Luce, 30 years of age, took her for a ride, robbed her of \$45 and buried her from the machine several hours later. At the Emergency Hospital she was found to have a dislocated shoulder, broken cheek bone and numerous cuts and bruises. Police plan to question Joe Diaz of Mountain View in whose name they say the car was registered.

HEATH DEBTS ENTER COURT

Extravagance of Lady Mary Detailed by Sir James in Suit Over Typewriter

LONDON, Oct. 23. (P)—Sir James Heath, who published an announcement in London last November that he would not be responsible for any debts contracted by his wife, Lady Mary Heath, appeared in Westminster County Court today in connection with an action brought to make him pay for a typewriter asserted to have been ordered by Lady Heath. It was charged that the machine was used jointly by husband and wife.

EAST AFRICA TRIBESMEN BREAK LAW

British Fear as Fighting Men Steal Cattle and Commit Burglaries

NAIROBI (Kenya Colony) Oct. 23. (P)—Growing lawlessness among the young fighting men of the frontier tribes, Lumbwa and Massai, has filled whites in certain sections of this part of British East Africa with foreboding.

The whites are outnumbered hopelessly by the native Africans, at whose feet are laid an increasing number of cattle thefts, burglaries and other disorders. Attacks have been made on tribesmen suspected of being informers. Sir Edward Origg, Governor of Kenya Colony, reported to the Legislative Council the results of a personal survey of the affected area. He gave it as his opinion the growing tendency to lawlessness of the young Lumbwa warriors is bound to have a bad effect on other tribes.

LADY MARY NOW INTERESTED ONLY IN HEALTH
RENO, Oct. 23. (P)—Not entirely recovered from injury received in an airplane crash during the Cleveland air races, Lady Mary Heath, who arrived here a few days ago, said today she had given no heed to statements emanating from London or any other place concerning her marital affairs and that she had no intention of commenting on them.

"I still am under a nurse's care and have tried to be very quiet. I do not want to enter into any controversy, especially through the press," she said.

Asked whether she expected, to file suit for a divorce, she declined to state but indicated she would "if I am particularly concerned at this time in recovering my health," she said. "In order that I can fit again, I hope within a month or two to be able to take up a plane from the Reno airport and see Lake Tahoe from the air."

Islands Gaining on Fruit Pest

SAN FRANCISCO, Oct. 23. (Exclusive)—The fight against the Mediterranean fruit fly in the Hawaiian Islands has been most successful and authorities have succeeded in effecting 50 per cent control of the pest, David L. Crawford, president of the University of Hawaii, said today on his arrival here on the Matson liner Manoa.

"The fruit fly has been bad in Hawaii for twenty years, but the work that has been done has effected a 50 per cent control in the islands generally and 95 per cent in Kona, where most of Hawaii's coffee is grown," he said.

FRENCH DELAY NEW CABINET

Crisis Unsolved After Day and Night of Debate

Substitute Group May Not Form Until Saturday

Brindard Adverse to Any Job But Foreign Minister

PARIS, Oct. 23. (P)—After a day of conferences between President Doumergue and the leaders of every shade of French political opinion, France's twenty-four-hour old cabinet crisis was still unsolved tonight.

In the opinion of most close observers the formation of a new ministry to replace Aristide Briand's "cabinet of the hundred days," which has governed France since July 20, will be deferred until the end of the week.

Meanwhile President Doumergue is being urged by a number of his important visitors from different parties of the Left Center and the Right of the Chamber of Deputies to call M. Briand to form his twelfth ministry.

Whether the veteran of so many stormy political changes would consent is another matter.

M. Briand's friends declare he has finally decided to refuse any offer than that of holding the portfolio of foreign affairs in someone's else cabinet.

The impression grew during the day that M. Briand would be pretty sure to remain at the foreign ministry in any cabinet except one formed from groups on the Right Center and the Left. Members of these parties have generally opposed his policy at the Hague Reparations Conference, and his views on early evacuation of the Rhineland and cessation of French rights in the Saar before him.

Film Laboratory Blast Kills One

SALT LAKE CITY, Oct. 23. (P)—Shirley Clawson was killed and her brother, Chester Clawson, was burned and cut in a series of explosions in their film laboratory in a downtown basement today.

Chester Clawson escaped from the laboratory and despite his injuries returned in an effort to rescue his brother.

DEATH BRINGS GIRL HOME
SAN FRANCISCO, Oct. 23. (Exclusive)—George M. Wiley, who ended his life yesterday, presumably did so because of grief at the appearance of his stepdaughter, Ida Marie Powell, but when the 16-year-old girl read of it in newspapers today she immediately returned home.

MIGHTIEST AMERICAN-BUILT SHIPS NEW ALL-ELECTRIC PENNSYLVANIA LINKS CALIFORNIA NEW YORK

FIRST SAILING NOVEMBER 11

California and New York are now connected by a fleet of the largest, most modern and luxurious ships ever built under the American flag.

The new Pennsylvania now joins her sister ships California and Virginia—three electrically driven, electrically operated, vibrationless liners—the largest commercial vessels in the world propelled by electricity.

A finer, more luxurious ocean service will be found nowhere. All rooms are outside. Cabins with private baths, and private verandas. Spacious and distinctively appointed public rooms, swimming pools, garage for your automobile, etc. The Pennsylvania, California and Virginia operate fortnightly to and from New York via the gigantic Panama Canal (overnight stopover) and Havana, where stop is made to visit this gay pleasure city of the Caribbean. First cabin and tourist cabin accommodations.

LESS WORK AND MORE JOY AHEAD

Shorter Days and Two Yearly
Vacations Are Predicted
by E. A. Filene

Businessmen in
California Declares

Against Increase
in Work

Oct. 23. (P)—De-
clared today in a
speech before the
California Manufacturers' As-
sociation, E. A. Filene, presi-
dent of the National Manu-
facturers' Association, that
businessmen in California
are opposed to an increase
in the work week.

He made the prediction in
an address to Dartmouth stu-
dents, saying mass production
necessitates that the masses
be able to buy what they
want and be encouraged to
want more.

He offered to supply them infor-
mation on the subject.

Earlier in the day, the commit-
tee was told by Joseph E. Whitcher,
of the Connecticut Manufacturers' As-
sociation, that he could not recall
where or how he got information
that business in California
was "distressed."

He said his associates
were not distressed if he
was not.

Whitcher said he had
been told that business in
California was "distressed."

He said he had been told

CARBIDE TARIFF SLASH DEFEATED

Existing Duty of 1 Cent Kept
by 42-to-37 Vote

Split in Coalition on Rates
Causes Failure

Shortridge Casein Boost to
be Decided Today

WASHINGTON, Oct. 23. (P)—A
split among coalition advocates of
lower duties on industrial commodi-
ties led to defeat in the Senate
today of an effort to cut in half
the existing rate of 1 cent a pound
on calcium carbide, a basic chemi-
cal used in the manufacture of
steel.

This only roll call of the day
showed forty-two Senators, includ-
ing thirteen Democrats and twenty-
nine Republicans, for retention of
the 1-cent tariff. Twenty Demo-
crats and seventeen Republicans
voted for the lower duty, among
the Republicans being such stal-
warts as Jones of Washington, as-
sistant Republican leader; Capper
of Kansas, McNary of Oregon and
Waterman of Colorado.

It is the first defeat of the coal-
ition on rates, they having suc-
ceeded yesterday in cutting the duty
on medicinal tannic acid by a 45-
to-33 vote.

PARIS PRAYS FOR SKIRT TO KILL FATTED CALVES

PARIS, Oct. 23. (Exclusive)—The
American women's long, slender and
well-shaped legs are responsible
for the short-skirt styles which
have swept over the world, asserted
Jean Patou in an interview today
in explaining his war for long
dresses.

"For fifteen years the French
women have been trying to disguise
themselves as Americans," he said.
"American women have as marked
characteristics long legs. Latin
women, on the contrary, generally
have short, rounded calves—hips
often too large and generally too
low."

"The Latin women blindly fol-
lowed the Americans, and as a re-
sult since the war there really have
been no chic French women."

In explaining the longer skirts
M. Patou said, "Because I love wom-
en, I want to make them capable
of charming the males."

"But what can one desire? With
the extreme models, women have
revealed everything."

"But the men love the unknown
and mystery."

M. Patou denied vehemently that
a long robe makes the wearer look
older.

"No style ages a woman, and it
is absurd to say that a short dress
imparts youth to any woman wear-
ing it."

THREE DIE AS ENGINE
HITS RAIL MOTORCAR

WASHINGTON, Oct. 23. (P)—
Three men were killed and four
injured early today, when a rail-
road motorcar was struck by a
locomotive on the Baltimore and
Ohio Railroad near Rockville, Md.

The dead are: Marion Selby, 24
years of age, son of Charles Selby,
superintendent of the metropolitan
branch of the B. & O.; Millard
Mobley, 20, of Gaithersburg, Md.;
and Thomas Poole, 22, of Rock-
ville, Md.

The injured are: William Selby,
26, son of Charles Selby; and four
other men, whose names were not
given.

The locomotive was traveling
northward on the main line, and
the motorcar was traveling south-
ward on a branch line.

The collision occurred at about
10:30 a. m.

The motorcar was carrying
passengers.

NATIONALISTS SWEEP AHEAD

City of Yencheng Captured
and Foe Pushed Back

HANKOW, Oct. 23. (P)—With
opposing forces estimated at more
than 300,000 engaged in the strug-
gle for supremacy in Central Chi-
na, the Nationalist government ar-
mies today seemed to have gained
an advantage in the fighting against
the rebellious troops of Marshal
Feng Yu-Hsiang, leader of the Kuom-
inchun, or "People's army."

The Nationalist forces recaptured
the city of Yencheng in Honan
Province, driving the Kuominchun
troops northward thirty-five miles
to Hsuehchow. Reinforcements, how-
ever, were reported hurrying from
Loyang, Shensi Province, to aid the
rebellious Kuominchun faction in
its effort to sweep aside the troops of
President Chiang Kai-Shek and roll
southward to reach the Yangtze
River at Hankow.

ALIEN COLONY SMUGGLED IN

Authorities Uncover Huge New Jersey Scheme

Hundreds of Portuguese to Face Deportation

Forgery of Naturalization Papers Charged

HACKENSACK (N. J.) Oct. 23. (Exclusive)—A colossal alien-smuggling scheme involving coastwise ships, Hoboken bar-rooms, fake labor agencies and the issue of forged naturalization papers is believed to be on the verge of collapse with the arrest of thirty-five bootlegged aliens in a raid on a factory settlement near Hackensack today.

The prisoners, mostly Portuguese and Spaniards, will be quizzed as to their entry into the United States.

WHOLE COLONY
While Assistant Commissioner of Immigration Baker was loath to give out information as to the clues leading up to the raid, he stated, speaking for Commissioner Day, that immigration officials at Ellis Island had been watching the growing Portuguese colony in Bergen county. Most of the men are thought to have entered the country illegally and all will be rounded up and deported, it was said. A ring, said to have been operating for two or three years, with headquarters in Cuba or South America, is back of the illegal entry of the aliens.

The aliens, who paid \$500 for their passage, were carried as members of crews of coastwise ships docking at Hoboken. When inspectors went aboard the vessels, it is charged, the legitimate members of the crew were hidden away out of sight and the aliens occupied their bunks or were working about the decks.

PAPERS PROVIDED
As soon as possible after the ship had received a clean bill of health from inspectors the aliens were taken ashore and, through the labor agencies maintained by the ring, put to work. Most of them soon drifted away to look for better jobs. First citizens' papers were provided for them, either by outright forgery or through fraudulent affidavits to New Jersey State courts.

Other raids are scheduled, it was said.

POWER LOAN FOR PAPERS SUIT FOUGHT

International Company Denies Right of Service in South Carolina

COLUMBIA (S. C.) Oct. 23. (P)—Attorneys for the International Paper Company and International Paper and Power Company contested before Federal Judge Glenn here today a suit of William Lavarre for \$250,000 damages.

The international contends that service on such a complaint in South Carolina is improper, asserting the defendants own no property in the State.

Lavarre avers that he had planned to purchase additional newspapers in the Southeast with money to be advanced by the International, but that the defendants refused to let him have more than \$750,000. As a result, he says, his aims and ambitions were balked. He also seeks to prevent the International from collecting the \$750,000 upon which they hold his demand note for a period of two years. They agreed to loan him \$2,500,000 for this period, he states.

Lavarre, with Harold Hall, operated the Columbia Record, Spartanburg (S. C.) Herald, Spartanburg Journal and Augusta (Ga.) Chronicle.

Ruling Given in Opium Case

WASHINGTON, Oct. 23. (P)—The Supreme Court today held that Fred I. King, convicted on a charge of shipping opium from San Francisco to Reno, Nev., has not been subjected to double jeopardy.

Asst. Atty.-Gen. Sisson, in explaining that King previously had been convicted of selling the same opium, insisted that the second indictment and conviction for sending opium out of the State was justified, asserting that under the antinarcotic law the act of selling opium without taking it from a stamped package constitutes offense and the act of sending it out of the State constitutes another.

LIVE-STOCK MEN MAY GET HELP

Giant Co-operative Market Plan Contemplated

Federal Farm Board Meets With Sales Agents

National Body Would Aim at Stabilization

CHICAGO, Oct. 23. (P)—A national organization with subsidiary corporations owned by its member agencies and amply financed to greatly extend activities toward stabilization of the live-stock industry was proposed today as members of the Federal Farm Board met with sixty-six representatives of twenty-nine co-operative live-stock sales agencies.

Following this afternoon's session of the conference, which will be continued tomorrow, the Farm Board issued the following statement:

"Officers of twenty-nine co-operative sales agencies, representing 700,000 members who are marketing live stock co-operatively, are making substantial progress in the formation of a national co-operative live-stock marketing organization.

"The proposed national organization will have subsidiary corporations owned by its member agencies. These agencies will be amply financed to greatly extend their activities and to offer the live-stock producers of this country marketing service which will stabilize the industry. They also will do a more orderly job of marketing of the live stock for its membership.

"When the organization is completed the Federal Farm Board will ask it to suggest names for a joint-stock advisory committee as provided for under the Agricultural Marketing Act."

The Farm Board members present at the meeting are Chairman Alexander Lege, James G. Stone, C. B. Denman and C. C. Teague. Denman is live-stock member of the board.

REQUISITION HONORED
OLYMPIA (Wash.) Oct. 23. (P)—Gov. Hartley honored a California requisition today for the return of Calvert Preston to Los Angeles for grand theft.

BEAU BRUMMEL LIN' UP GIVEN BY PSYCHOLOGIST

NEW YORK, Oct. 23. (Exclusive)—New York's ultra-dapper police commissioner, Grover A. Whalen, does not merit the title of best-dressed man. Instead he is surpassed astorically by at least six other Americans, including Archibald Klufph of Cleveland.

Astonished members of the Klwanis Club at a luncheon at the Hotel McAlpin were told as much frankly today by Dr. Orabella Rexford, psychologist. She had made a tabulation of best dressers, during research on male raiment. Because of her studies she was able to tell the hunchers another thing: They are about to become the gay-hued butterflies of business.

Men are on the verge of revolt, she said, and will blossom soon in mood-expressing garments as multi-colored—and as sheer—as those of women.

Yellow, she thinks, will be a nice tone for a banker like J. P. Morgan, because bankers habitually work in an aura of purple.

Besides Klufph, who is a rubber merchant and rated third, others who precede Commissioner Whalen in the psychologist's good garb scale include Mayor Walker of New York; O. O. McIntyre, writer; Otto H. Kahn, banker; Conde Nast, publisher, and one unnamed hero. The only reason Commissioner Whalen stands as high as he does, Dr. Rexford announced, is because of the gardenia usually seen in his button-hole.

Clothes and colors, she said, are stimulants. If a man hasn't suits enough to go on a real bender, he can get what corresponds to a cocktail thrill by changing to replenish socks and neckties.

Fumes Lead Dry Agents to Still

SAN FRANCISCO, Oct. 23. (P)—Federal prohibition officers raided a building within a block and a half of the custom house tonight and seized two large stills and thirty-five five-gallon cans of alcohol. Louis Tosche was arrested, charged with operating a still.

On one floor of the building stood a 400-gallon still, thirty feet high, cooling upward through the ceiling. A large steam boiler, 10,000 gallons of mash and other equipment were seized.

Agents said attention of officers first was directed to the place by the odor of mash permeating prohibition headquarters, a short distance away.

ousting SOUGHT OF PROSECUTOR

Patronage Committee Acts Quickly in Senate

Charges Revealed Against South Carolinian

Attorney-General Reminded of Secret Report

WASHINGTON, Oct. 23. (P)—Acting quickly today after it had examined a confidential report of the Department of Justice, the Senate Patronage Committee called Atty.-Gen. Mitchell's attention to a dozen charges that a Federal District Attorney of South Carolina is unfit to hold office.

The letter was written on a motion by Senator McKellar, Democrat, Tennessee, a member of the committee, which was adopted unanimously.

The report, which Chairman Brookhart said had been "pigeon-holed" by the department, was prepared by J. Edgar Hoover, chief of its bureau of investigation, on the basis of evidence gathered by a special investigator.

Among the charges the document cited was one that J. D. E. Meyer, the District Attorney, had associated with three other attorneys in the private practice of law and extended "favoritism" to their clients.

ROMERO SAILS FOR TOKYO

SAN FRANCISCO, Oct. 23. (Exclusive)—Dr. Miguel A. Romero, newly appointed Mexican Minister to Japan, sailed on the Shinyo Maru for Tokyo today to take up his post there. Dr. Romero formerly was Mayor of Mexico City.

STRIKE
A nation-wide strike, called by the International Brotherhood of Electrical Workers, began April 1 at about six o'clock in the morning in the open shop. The strike was a sporadic affair, which broke out on all summer long. At times it extended to the Pacific Coast. On November 1, in San Francisco, where the strike was most active, it was routed.

...a perfect score

Rio Grande is as perfect as it is scientifically possible to make a gasoline. It has all the qualities demanded of a modern motor fuel. And those qualities are all in balanced ratio... one quality is not emphasized at the sacrifice of another. And this is why Rio Grande is known as the uniform, balanced gasoline...the gasoline that's "tuned to modern motors."

Red Car Strikers in Threatening Demonstration Outside P. E. Building

Pacific Electric Car Surrounded by Strikers as It Leaves Main Depot Here

On October 9 the Fire Commission, against the bitter opposition of Fire Commissioner Francis Drake, adopted a resolution calling on the firemen to surrender the charter granted by the American Federation of Labor and the firemen, on October 22, had a meeting and voted to comply. On October 14, by unanimous vote, the City Council declared it against public policy for city employees to affiliate with the American Federation of Labor.

On October 24, Commissioner Drake resigned as a fire commissioner and Mrs. Francis Noe and Beth R. Brown resigned as mem-
bers of the Mayor's Mediation Commission, coincident with the announcement that a joint committee of the Central Labor Council, the Building Trades Council, the Metal Trades Council, and the Allied Printing Trades Council had forbidden trades unionists to hold official posts under Mayor Snyder. An imitation coffin, covered with cabbages and vegetables, was placed in the entrance of the display at the Labor Temple with the address "Here lie the remains of the city fire fighters' union, stabbed in the back by Mayor Snyder—M. and M. Snyder."

The policemen's union faded out with much less publicity. It was given its final quietus November 6, when only about sixty men attended a mass meeting called by the railway brotherhoods and Organiser J. R. Dale of the American Federation of Labor. There was some question as to whether this union was ever actually chartered, but if so the charter was returned and the movement quietly forgotten. The Boston police strike was too fresh in the public recollection to permit any other outcome.

Tomorrow's article will describe the I.W.W. movement and its influence on the local labor situation. (Continued Tomorrow)

CANADA JUMPS INTO SPOTLIGHT

MacDonald's Visit Offers It
New Prestige Chance

Repercussions Anticipated in
Dominion Conference

British Trade Factor One of
Its Talking Points

LONDON, Oct. 23. (Exclusive)—
British economic and, to some extent, political attention is being focused at present on Canada, as a result of the visit of Prime Minister MacDonald and J. H. Thomas, and Canada is likely to emerge as a special commonwealth with enhanced prestige at the conference of all British dominions sitting at London, it is being said here.

Canadian representatives at the conference now going on in London are reported to be insisting that Canadian autonomy in every way must be consistent with Canada's coequal position within the empire.

Because of business possibilities offered by Canada, the British government is anxious to hold the empire economic conference in Ottawa next year. This conference will consider the development of trade within the empire, which move is being specially fostered by the Canadian adman, Lord Beaverbrook. This conference is to be distinct from the regular imperial conference in London next year. Canada is especially selected for this economic conference because J. H. Thomas, lord privy seal and Minister of Employment, believes that the best prospects are offered there and also because the economic growth of Canada is the most promising.

DRY RAIDED TO BE TRIED
SAN FRANCISCO, Oct. 23. (Exclusive)—The police commission today ordered John Mullin, police sergeant, to stand trial on a charge of illegal entry following a raid on the home of Mrs. Nellie Manna. No liquor was found.

MILK BOYCOTT FLAMES ANEW

Kansas City Supply Trucks
Menaced by Mob

Armed Deputies on Carriers
Prevent Destruction

Farmers Dump Small Lot of
Pasteurized Product

KANSAS CITY, Oct. 23. (P)—
Breaking out in new violence today, Kansas City's seventeen-day-old milk strike resulted in armed deputy sheriffs being called to guard milk trucks while Chamber of Commerce officials prepared to attempt arbitration.

A band of approximately twenty men was prevented by three deputy sheriffs from destroying a load of 270 gallons of milk on a highway near Lone Jack, Mo., a suburb. The milk truck was halted by a barricade across the road. As the men attempted to talk to the truck driver the deputy sheriffs in a motor car arrived and ordered the barricade removed.

The men then opened the blockade and the truck continued the journey into Kansas City.

A short time previously a band of farmers had dumped thirty gallons of milk seized from a truck owned by another Kansas City pasteurization plant.

Only the Pasteurized milk supply of Greater Kansas City is affected by the strike. No effort to obtain a higher price has been made by the raw milk producers.

EX-PREMIER BRUCE
TO SAIL FOR LONDON

CANBERRA (Australia) Oct. 23. (P)—S. M. Bruce, former Australian Premier, whose ministry was defeated in the recent general election, will leave for London soon and later will visit the United States. Mr. Bruce lost his seat in the House of Commons to a Laborist.

WHO? HEATH ARE THE MOST TACTFUL OF CLOTHES

That is to say: whatever the company or the occasion, Thos. Heath Clothes seem to wear just the proper degree of dignity. Designed as they are to give unlimited freedom and ease, they lend themselves to the most informal uses. But underneath this air of nonchalance is the character that comes of hand work, personal supervision, and everlasting fussing with details.

RADIO HOST FROM COAST TO COAST

**NEW TEETH END
HIS ILL HEALTH**

D. P. WALKER, Who Reuses Experiences With Dentists Using Famous E. R. Parker System.

"MANY persons who are suffering from bad health caused by bad teeth, and have been putting off going to a dentist, may be interested in my experience with dentists who use the E. R. Parker System. They fixed me up eight years ago, making me a complete set of artificial teeth which I am still wearing with perfect comfort and satisfaction."

"I suffered from badly ulcerated teeth which seriously affected both my upper and lower jaw. I had 25 diseased teeth, and I thought the extraction was going to be a tough and painful job but the dentist removed every one of them clean as a whistle and without a particle of pain. One thing I remembered distinctly was when he pulled a big eye-tooth without my knowing it. I worried about it and put my finger up to feel of it—and it was gone! The extraction of all 25 teeth left no ill after-effects."

"I was fitted with a set of artificial teeth, upper and lower—the same set I am still wearing after eight years—and all of my friends said I looked ten years younger. My health improved so much that I felt ten years younger, too. I can do anything with my false teeth that I could do with my natural teeth—I can chew corn off the cob and enjoy any food I want."

"Some time after I got my new teeth I had to undergo a surgical operation requiring an anesthetic. When the surgeons started to give me the ether I asked them if I hadn't better remove my false teeth. They told me that they had been completely deceived by the teeth and thought they were natural."

"I have sent many of my friends to dentists who use the E. R. Parker System, and my recommendation goes first, last and all the time to them."

The foregoing statement was made voluntarily by D. P. Walker, furniture merchant, living at 4008 Lyon Avenue, Oakland, Calif. He is one of more than 2,000,000 persons in America who have had dental work done by dentists using the E. R. Parker System.

For 20 years, men and women suffering from stomach troubles, pimples, blotches and headaches have taken Dr. Edwards Olive Tablets, a compound of vegetable ingredients, known by their olive color. They act easily upon the bowels without gripping. They help cleanse the system and tone up the liver.

If you value youth and its many gifts, take Dr. Edwards Olive Tablets regularly. How much better you will feel—and look. 15c, 30c, 60c.—[Advertisement.]

SHIPS BUDGET CUT MILLIONS

Merchants' Fleet Corporation
Tells of Reductions
Change in Operation Plans
to Save Still More

O'Connor Discloses Basis of
Great Economy

WASHINGTON, Oct. 23. (P)—A reduction of \$4,000,000 in the expenses of the Merchant Fleet Corporation was reported in the budget estimate for the coming fiscal year today by Chairman O'Connor of the Shipping Board, who also is president of the corporation.

The reduction brought the estimate to \$6,000,000, and O'Connor added that a change in the operation plan of some other Shipping Board lines will bring further diminution of supervisory personnel that will save another \$1,000,000.

During the past six months, he said, a material reduction in personnel is planned, "especially in the districts where the overhead is entirely out of proportion with the requirements."

O'Connor reported that the reduction is brought about through substantial lowering of personnel and operating expenses, attributable in large measure to the sale of 200 individual vessels including five established lines, among them the United States Lines, and the corporation's protective and indemnity agency.

During the year, the chairman reported, the pay roll had been reduced 35 per cent, in addition to a cut of \$217,711 in reserve fleet salaries; economy has been effected in the operation of remaining ship lines through increased revenues, reduced fuel costs and new operating agreements on a "hump sum" and "profit-sharing" basis.

Accounts receivable were placed by the fleet corporation at \$28,594,815.59 as of September 30.

GASSING OF FAMILY LAID TO FATHER

Four Ohio Children Die;
Another and Mother in
Serious Condition

HAMILTON, O., Oct. 23. (P)—Four children were found dead in their home here tonight and their father, Charles King, was sought by police on the strength of mysterious note indicating he is their slayer. One other child and the mother are in a critical condition. All of the occupants of the house had breathed escaping gas.

The note found near the bodies indicated that the father might have contemplated suicide and named three other men as being to blame for the act.

The death children were Keith, 5 years of age; Paul, 10; Leon, 12, and Albert, 14.

The note found near the bodies, which police said apparently was written by the father, read as follows:

"To the law—I did this because I had to. I was poor but happy. Some wanted to pay me. I have insurance to pay expenses. Don't look for me as I leave you with Ethel and the boys."

The note then gave the names of three men, not including the father of the family, and said the three "caused me to do this."

Discovery of the bodies was made early this evening by neighbors who found gas escaping from the house and kicked in a door.

Police said the gas apparently had been turned on last night after the mother and the five children had retired.

Gases and Ash Again Spouted by Mont Pelee

PORT DE FRANCE (Martinique)
Oct. 23. (P)—Mont Pelee, famous West Indian volcano, was in eruption for eight minutes last night, sending forth gases, smoke and ash.

It was one of a series of small eruptions, which has been observed during the past weeks.

The gases and ash were flung out in the direction of Saint Pierre, which was destroyed with terrible loss of life by an eruption in 1902, and Morne Rouge causing a panic among the inhabitants. Many people left these two towns for Port de France early last week.

Soviets Granted \$9,000,000 Loan

MOSCOW, Oct. 23. (P)—The American Society for Jewish Farm Settlements in Russia has granted the soviet government a \$9,000,000 loan for a period of seventeen to nineteen years at 5 per cent.

The loan, which will be handled by the Chase National Bank, will be issued in four quarterly installments of \$2,250,000 each for a period of ten years beginning this year.

Soviet Airplane at North Platte

NORTH PLATTE (Neb.) Oct. 23. (P)—The Russian plane, Land of the Soviets, arrived here shortly before 5 p.m. today for an overnight stop.

About thirty citizens and air field attaches were on hand to greet the flyers who are en route from Moscow to New York City.

UTAH COURT UPSETS OLEOMARGARINE LAW

SALT LAKE CITY, Oct. 23. (P)—The Utah oleomargarine law, passed by the last Legislature to tax the product on sales in this State, was held unconstitutional in a decision handed down today by Judge Moffat of the Third District Court.

BRITISH OUT TO CAPTURE CAR TRADE

Auto Manufacture as Aid
in Unemployment Backed
by Government, Report

LONDON, Oct. 24. (Thursday) (P)—A sweeping plan to push forward Britain's motor car industry in connection with the government's schemes for relief of unemployment and to capture the automobile markets of the world is said to be under way here.

According to articles splashed over the front pages of the Daily News and the Express today, the plan is largely aimed at American competition. The scheme carries the motor car war between Britain and the United States an important step forward, says the Express.

It was stated that the government, huge financial interests and the entire motor trade in Great Britain are engaged in evolving the plan.

The Prudential Insurance Company, regarded as one of the richest corporations in the world, is said to have undertaken to back the scheme and to have invested already \$1,000,000 in the form of Rootes, Ltd., the largest automobile distributing agency in Great Britain.

The newspapers indicate that the scheme is a sequel to efforts of J. H. Thomas, Lord Privy Seal and Minister of Unemployment. He recently conferred with British leaders in the industry and is reported to have told them that this country now is producing cars better than the American and that with government sympathy and backing they could capture the entire motor markets within five years.

NEW-WORLD QUOTA LAWS TO BE URGED

Swarthy Europeans Enter
as Mexicans, Says Study
Commission President

SACRAMENTO, Oct. 23. (Exclusive)—With a view to putting a stop to the smuggling of aliens into America in violation of the immigration quota law, the Immigration Study Commission will recommend to Congress that Western Hemisphere countries be placed under the existing quota act and that the registration bill now in committee.

The announcement was made today by C. M. Goe, of Sacramento, president of the Immigration Study Commission, who has just completed a seven months' tour in Europe and along the Mexican and Canadian borders.

"The commission's studies indicate," said Goe, "that a considerable number of aliens are making their way to Canada, Cuba and Mexico, intent upon reaching our eastern industrial centers by bootlegging across the border. Syrians, Arabs and other Mediterraneans of swarthy complexion are passed off as Mexicans and thereby gain entrance into America despite our quota laws. Mexican official certificates testifying to Mexican birth are obtained by the aliens."

"We believe that the legislation pending before Congress and that which the commission will recommend will remedy these conditions."

Mexican History Board Listens to Gen. Amaro

MEXICO CITY, Oct. 23. (P)—In a speech before the newly created commission of military history at the War Department last night Gen. Joaquin Amaro, Minister of War, announced the army would write for itself the history of the so-called religious conflict from 1926 to 1929.

Gen. Amaro charged "criminal clericalism with capitalistic oppressors and ambitious traitors" comprised the greatest enemy of the Mexican revolution and declared it was necessary to form a criterion for the army by furnishing it with books written by the soldiers themselves. These, he said, will be based upon War Department records, and will "displace the fiction of the clergy throughout Mexico's period of trial."

He bitterly assailed the Roman Catholic Church for representing "privilege and class" at a time when the Mexican proletariat was seeking its freedom.

DAMAGES IN APPEAL INCREASED TEN-FOLD

SAN FRANCISCO, Oct. 23. (Exclusive)—It cost the Pickwick Stages System \$18,000 to appeal a \$2000 judgment awarded Alex J. Forrest, of Los Angeles, injured in an accident involving one of the company's buses. The original judgment, appealed by the company, was increased to \$20,000 by a jury in Los Angeles county Superior Court on retrial and the latter amount was upheld today by a decision of the State District Court of Appeals.

FARM EXPERT WILL TRY ITALY'S METHOD

BERKELEY, Oct. 23. (Exclusive) Methods of solving production problems of grapes and olives worked out by Italian agriculturists, that may be of value in California, will be introduced experimentally in San Bernardino county by H. J. Wilder, farm adviser there, who is in Europe making a study of conditions.

TEN BEGGARS ADMIT BEING SOVIET SPIES

RIGA (Latvia) Oct. 23. (Exclusive)—Latvian police have arrested ten beggars who have confessed that they are members of the soviet spy organization, two of them having been making regular trips across the border with information concerning the army.

AFGHANS' KING CATCHES RIVAL

Former Ruler and 1000 of
Followers Captured

Amnesty Granted Adherents,
But Not "Water Boy"

Country Pleased Nadir Khan
Has Been Victorious

KABUL (Afghanistan) Oct. 23. (P)—After holding out for nearly a week in the fortress Djelul-Seraj, Bacha Sakao, erstwhile King of Afghanistan and former "water boy" of the north, was surrounded today with 1000 loyal adherents to Nadir Khan, Afghanistan's new King, on condition that their lives be spared.

Thus the tumultuous reign of the former water carrier who tasted the sweets of kingship for ten months, after driving Amanullah from the throne, came to a dramatic close.

FATE IN DOUBT

All the officials of the late court and cabinet, including Bacha's brother, Field Marshal, governor of Mazar, were granted amnesty immediately by Nadir Khan. The fate of Bacha himself remains in doubt. He and his captured followers have been taken to Kabul.

Nadir Khan has re-established all the former government offices, re-engaging officials employed by Amanullah. In reply to the congratulations of Amanullah, who is living in exile in Rome, Nadir Khan, who was elected King only last week, telegraphed:

"The era of your government will be engraved in golden letters in the history of Afghanistan. We will follow loyally the path traced by you."

Nadir Khan was formerly a loyal adherent of Amanullah.

REJOICING GENERAL

There is general rejoicing in Afghanistan over the termination of the conflict which has torn the country asunder for eleven months. All the diplomatic representatives of Afghanistan abroad have sent their felicitations to Nadir, who is expected to retrieve the country's lost fortunes at home.

Merchants throughout the country are collecting funds to support Nadir Khan.

LIFE DIPLOMAS FOR FOUR

VISALIA, Oct. 23.—Four recommendations for life diplomas have been made by the Tulare County Board of Education, according to J. E. Buckman, county superintendent of schools. They are Ernest J. Palfrey of Dinuba, William J. Sanders of Visalia, Katie Marmion of Lindsay, and Charlotte Anderson of Visalia.

TIMES WANT ADS

More for your money

EVERY dollar you invest in Frigidaire buys definite value—value in terms of improvements that save time, work and trouble—value so plainly evident that more Frigidaires have been bought than all other electric refrigerators combined.

And you not only get definite value but extra value. For you get the famous Frigidaire "Cold Control" at no extra cost. You pay nothing extra for the surplus power of the Frigidaire compressor. You pay nothing extra for the improvements that have made Frigidaire incredibly quiet. You pay nothing extra for the sound engineering

ing which eliminates complicated parts and the need of factory service.

Come in and see the Frigidaires now on display. See the sensational "Cold

Control" that enables you to keep ice cubes and desserts more easily and quickly. Listen for the sound of the motor. You don't hear it start, stop or run. Note the striking beauty of the cabinets—that all mechanism is completely concealed. Note too, the convenient arrangement of the shelves. They are elevated to a level height. There is no stooping necessary.

You'll be amazed that you can have a Frigidaire with all of these features at the remarkably low price you see. Call at our display room and we give you facts and figures.

from First Page

President declared that his administration will insist on building waterways like any other public works, "by extending the same standards of efficiency and economy to the waterways as to the highways."

He said the new design of the waterways is to establish private enterprise in the waterways, "in substitution for government ownership of the waterways."

President continued that the new design of the waterways is to establish private enterprise in the waterways, "in substitution for government ownership of the waterways."

He said, "should we not have a private initiative in the waterways? We must have the best of both worlds. We must have the best of both worlds. We must have the best of both worlds."

BULLET GIVES NO TUMMYACHE

Chicago Man, Shot in Face, Loses Three Teeth and Swallows Missile

CHICAGO, Oct. 23. (P)—Ben Friedman was shot in the face, lost three teeth, swallowed the bullet and didn't even suffer indigestion. Things like that happen but are hard to believe. Friedman, however, had evidence. The teeth were gone, the bullet was in his stomach. Iroquois Hospital physicians found it.

Friedman, 42 years of age, was stepping out of a West Madison-street restaurant last night. A man rushed at him, pushed a pistol into Friedman's face and pulled the trigger. Then the fellow ran away and never was caught.

by their powder exploding prematurely. Two of the Guardsmen suffered broken legs. All were taken to the hospital.

The President and Mrs. Hoover, along with Speaker Longworth, accompanied them from Cincinnati, were on deck when the large crowd surged forward.

MANY IN PARTY
"Apparently nothing can dampen Indiana," Mr. Hoover said with a smile. "Because of the weather conditions I must ask you to listen over the radio tonight."

The Greenbrier was preceded by auxiliary boats of the President's immediate party and the palatial river passenger boats Greater Pittsburgh and Cincinnati carrying passengers tonight's celebration from various points on the river.

The President rested at the Brown Hotel until the banquet tended him by the Louisville Board of Trade. While he was so engaged, Mrs. Hoover went to the Federal Club where Mrs. Alvin T. Hart, vice-chairman of the Republican National Committee, entertained ninety women in the First Lady's honor.

Edison Leaves on Trip Home
DETROIT, Oct. 23. (P)—Thomas Edison, aboard Henry Ford's private car, the Fair Lane, left here tonight for his home in East Orange, N. J., he boarded the car at Dearborn, the scene Monday of the celebration of the fiftieth anniversary of Edison's perfection of the incandescent lamp.

WASHINGTON BLAZE NOW UNDER CONTROL
EVERETT (Wash.), Oct. 23. (P)—A forest fire which last night threatened the town of Gold Bar, Wash., is under control today after destroying a bridge on the Stevie Pass Highway through the Cascade Mountains. Automobile traffic on the highway will be blocked about a week, while the bridge is being replaced with a temporary structure.

MRS. B. H. LINDEN DIES AT BERKELEY
BERKELEY, Oct. 23. (Exclusive)—Mrs. Bernard H. Linden, wife of the Supervisor of the Sixth United States Radio District, died at her home here today following an illness of a year. She was a native of California and had lived in the Bay region all her life. She leaves three children in addition to her husband. Funeral services will be held Saturday in Oakland.

DEATH AND RUIN IN LAKE STORM

Fury of Winds Hindering Shipwreck Rescues

Citizens of Green Bay, Wis., Flee Flood in Boats

Chicago Suburbs Hard Hit by Terrific Blasts

(Continued from First Page)
It is owned by the Valley Camp Steamship Company.

The steamer Maple Court, with a great hole in its bottom and full of water, is reported to be in danger of breaking up on Magnetic Reef, near Cockburn Island. It has a crew of twenty-five on board and the tug which went out to its assistance from Detroit have not been able to get near it because of the storm conditions.

Twelve men and one woman, comprising the crew of the freighter T. J. Nessen, were rescued from their vessel 300 yards off the Leamington shore line in Lake Erie today. Their ship grounded on Rock Shoals at midnight last night. All thirteen had worn lifebelts all night.

The ship is doomed. Its engine-room is completely flooded. Its funnels hang askew over the side. Forward of the deckhouse appears a widening crack in her hull.

Five miles to the west where the freighter N. J. Nessen is foundering the steamer Caldwell sent out distress signals but the lake was in such a fury that rescuers could not reach the vessel. A forty-eight mile wind was driving it, evidently helpless, toward Point Pelee, and the craft appeared to be breaking up. It is not known how many men are aboard.

SEE PLANE PLUNGE
Reports from Menominee, Mich., tell of four persons witnessing an unidentified airplane plunging crazily into the waters of Lake Michigan near Green Island. The occupant or occupants of the plane are believed to have met death from drowning.

Reports from Benton Harbor, Mich., today say heavy seas cut into the banks the entire length of Berrien county. Five hundred feet of pavement was ripped from the pumping station brick driveway. Workmen removed dozens of small buildings. There was a general exodus of beach dwellers to higher quarters during the day. Householders employed boats to remove possessions. Homes and hotels were endangered. Sea waves rolled over both piers. Pine and Fir streets leading from Hill Boulevard are closed. Pine being under water.

Boats were called into service to remove some residents of 200 homes in northeast Green Bay, whose houses are surrounded by ice and a half to three feet of water following a rise of the East River during last night's storm.

Of the five persons killed in the Chicago area two of them met death in automobile accidents and three were hit by trains. The accidents were attributed to the blinding snow of the city's first touch of winter.

Huge stones and timbers were tossed around like splinters and parkways were flooded when the storm was at its height. Lake Shore Drive resembled an unpaved country road.

SUBURBS HARD HIT
Chicago suburbs from Waukegan to Michigan City are equally hard hit. At Waukegan where the high water threatened to undermine the plant of the Johnson Motor Company, 100 men worked all day building a sea wall of sand bags and by nightfall had placed 3000 bags along the lake front.

In Evanston the damage to the breakwater and the outer bulwarks of the shore line is irreparable as far as Evanston is concerned and outside help from the State and Federal governments will be necessary if the shore is to be protected. Mayor Bartlett said.

In Northern Indiana towns the damage will run high above \$750,000. At Long Beach, Bartlett, Michigan City, Gary and Hammond cottages were swept away and roadways washed away. Retaining walls at Lake Front Park in Gary are gone and a skating rink at the beach battered in by the waves.

The Calumet River is five feet higher than normal and 100 homes along its banks are flooded.

STOCKS CRASH IN BEAR DRIVE
(Continued from First Page)
It utilizes the lowest since June 26 and that of twenty rails the lowest since July 3.

While brokers acknowledged that thousands of small traders undoubtedly had been completely wiped out the senior partner of one of the largest commission houses stated that a tremendous amount of stock, having been held over a period of months, was sold at a profit.

PRINCE QUITS FOX HUNT DUE TO IMPENDING BAN

LONDON, Oct. 23. (Exclusive)—When the Prince of Wales abandoned fox hunting and sold his horses early this year he did so not for his own personal safety, as was believed generally, but because the prohibition of fox hunting is about to come before Parliament and the heir to the throne must not become involved in any political issue.

THE story was told today by the secretary of the Royal Society for the Prevention of Cruelty to Animals, of which the Prince is president. The society voted recently to lay a bill before Parliament calling for the abolition of stag hunting, and ultimately fox hunting.

Already it has succeeded in prohibiting rabbit coursing in an enclosed space and the shooting of birds from traps.

HIGH MASONS GIVEN HONOR

WASHINGTON, Oct. 23. (P)—Knights Commander of the Court of Honor elected by the Supreme Council, Scottish Rite Masons of the southern jurisdiction, included: Northern California: Charles A. Adams, San Francisco; Benjamin R. Aiken, Piedmont; Arthur R. Anderson, Oakland; John M. Riddgett, Lodi; A. E. Boynton, San Francisco; Leroy W. Brant, San Jose; Antonio Coglianore, San Francisco; Edwin J. Conn, San Francisco; Louis T. Crank, San Francisco; Ralph S. Crowl, Fresno; Frederick W. Docker, Fresno; William Ford, Burlingame; John C. Gard, San Mateo; Robert E. Gaylord, Oakland; John H. Harbour, San Francisco; William F. Jackson, Sacramento; Con. Mantale, Stockton; Frederick N. Morcom, Oakland; Henry Motter, San Francisco; Julian Frush, Sacramento; William H. Puleston, Fresno; Ernest S. Rankin, Cupertino; Arthur H. Reinstein, San Francisco; John Robinson, Sacramento; Henry A. Rosenberry, Westwood; Francis O. Sievers, San Francisco; Albert O. Stein, San Francisco; William S. Wells, Jr., Piedmont.

Southern California: George M. Adair, Los Angeles; Samuel E. Burke, Los Angeles; Oscar G. Burrows, Long Beach; Thomas F. Cooke, Los Angeles; Humbert L. Glanville, Pasadena; Charles L. Gurney, Long Beach; Ernest L. Hurst, Los Angeles; Julius A. Kanner, San Diego; Joseph J. Mottell, Long Beach; Robert A. Odell, Los Angeles; Frank H. Perry, Long Beach; Charles H. Price, Pasadena; William A. Raymond, Long Beach; Ira F. Thompson, Los Angeles; Emory W. Thurston, Los Angeles; Fred W. Tinn, Santa Ana; Charles E. Wright, Burbank; Zan Y. Zak, Los Angeles.

VAN LOON'S THIRD WIFE DIVORCED

"Companionate" Mate of Author Wins Decree on Report No. 2 Reconciled

NEW YORK, Oct. 23. (P)—On testimony that Hendrik Willem Van Loon, historian, had gone back to his second wife and is living with her in Holland now, Official Referee Burr today recommended that a divorce be granted his third wife, Frances Goodrich, an actress.

Maurice A. Hanline, vice-president and European manager of the publishing firm of Horace Liveright, Van Loon's publishers, and Benjamin W. Ruben, also a publisher, both testified that he had returned to his second wife, the former Helen Griswell, and that they now are living together. Van Loon did not contest Miss Goodrich's suit.

Reporters and cameramen went scurrying to Van Loon's apartment two years ago this autumn, when, shortly after their wedding, he and Miss Goodrich announced that theirs was a companionate marriage, and that they would continue to occupy their separate apartments. They separated permanently more than a year ago.

Is your mattress CHEATING you

Nachman Feather-Spring mattresses—
finest spring mattress in the world—
will spare you many hours of nerve-racking, weary tossing

SCIENTIFIC investigation has revealed that the average person loses the benefit of two hours' sleep each night. In most cases the cause is physical discomfort . . . due to inferior, soggy mattresses. 730 hours a year is a terrific toll to pay—especially when a Nachman Feather-Spring, the finest spring mattress in the world, can be purchased at such reasonable cost!

We spend a third of our lives in bed! Undisturbed sleep is the only form of complete rest. Therefore the best mattress on the market is an investment in comfort that is absolutely essential to your health. The mattress you sleep on is as important as the food you eat!

Nachman Feather-Spring is superior to any spring mattress on the market today. No spring touches another. Each is independent in its resiliency and gradual, uniform response to pressure. In every detail of construction it is the finest spring mattress made! \$39.50 everywhere.

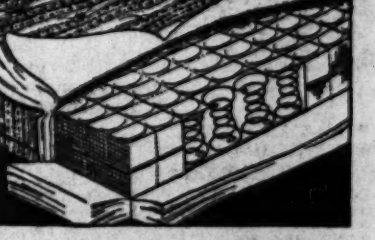

The word "Nachman" is recognized as a mark of protection wherever it appears on spring-filled products. Nachman springs, embodying the same patented principles, are essential parts in select upholstered furniture and in the upholstery of automobiles noted for their comfort and riding ease. The Nachman label means super-quality.

NACHMAN Feather-Spring Mattresses

... The Best Spring Mattress Made

\$39.50
Also Nachman Mattress in Model No. 3 Available in a Lower Price Range.

Observe the patented double-coil spring construction which makes Nachman Feather-Spring mattresses distinctive from all others. Each spring is a separate unit . . . does not even touch its neighbor! The patented coil features give you controlled resiliency—the basic principle of automobile shock absorbers. "Eyes" prevent piercing the fabric that holds the ends in place. Look for the Nachman Feather-Spring label as your guarantee of quality!

President Sketches Opening of Waterway System

RIVER ERA'S RENAISSANCE HAILED IN HOOVER TALK

Elaborate Projects on All Inland Channels Recommended in Address at Louisville

LOUISVILLE (Ky.) Oct. 23. (AP)—The following is the text of President Hoover's speech here:

I am sure it is a great disappointment that this meeting could not have been held upon the water front as was planned. It seemed to me that the plan of your committee for me to address you upon the policies of this administration in waterway development from the pilot house of the steamer upon which we arrived at Louisville this evening, had a peculiar fitness.

I was greatly relieved, however, when you changed that plan. The enthusiasm of the citizens of Louisville for waterway development was well shown by the thousands who met us upon our arrival and I fear that their enthusiasm for that cause would have led them to leave the cold rain even at the risk of death.

During the day we have completed the journey from Cincinnati to Louisville as part of the celebration of the Ohio Valley upon the completion of the improvement of the Ohio River into a modern waterway.

The river has now been formally opened to traffic from above Pittsburgh, 1000 miles to Cairo, on the Mississippi, from which point another 1000 miles of modernized waterways leads to the sea at New Orleans. By dams and locks, by dredging and reclamation, we have transformed the Ohio River from a stream of shallows, oftentimes dangerous even to rafts, into a canalized waterway of an assured nine feet of depth at all seasons. This transformation will not revive the romantic steamboat days of Mark Twain, but it will move more goods.

GAIN IN TONNAGE

The picturesque floating palaces of Mark Twain's day drew two or three feet of water, and even then found their way precariously around the bends among the meads and over sand bars. In time they were unable to compete with the spreading railroads, and river navigation passed into its dark ages. But now is its day of renaissance. Upon deep and regular channels untrammeled Diesel turbines now long trains of steel barges. What the river has lost in romance it has gained in tonnage. For in steamboat days 500 tons was a great cargo, while today 10,000 tons is moved with less men and less fuel. It is thus by deeper channels and new inventions that our rivers come back as great arteries of commerce after half a century of paralysis. And the new waterways are not competitive but complementary to our great and efficient railroads. It is the history of transportation that an increase of facilities and a cheapening of transportation increases the volume of traffic.

In the steamboat days the rivers were the great arteries for travel. Those who must hurry will have little inclination to journey by river steamers, but those who wish recreation may well return to this magnificent and powerful river. The history of the Ohio was born of the ice age, half a million years ago. Its beauty remains today undisturbed by our improvements, and will remain long after our nation and race have been replaced with some other civilization. And those who love the glories of "Old Man River" may now again find rest and food for the soul in travel on its currents.

RIVER CARRIED LA SALLE

The Ohio has a large place in the history of our race. On this route 250 years ago hunch canoes carried La Salle and his first party of white men into the wilderness of the Middle West. He was the first to visit the falls of Louisville, whose roar is this moment in my ears. Down this valley through succeeding centuries poured the great human tide that pioneered the greatest agricultural migration in history. In turn came the explorer, the trapper, the early settler, the

main trunk of this transportation system, the Mississippi. It is only now that the full movement of goods can take place between the great cities of Pittsburgh, Cincinnati, Louisville, on one hand, and St. Louis, Memphis, New Orleans and the wide ocean on the other.

TURN TO NEW JOB

With the completion of our national job on the Ohio, with the celebration of this day, we can well turn our minds toward the other great job in waterway improvement which lies before us. The Ohio is but one segment of the natural inland waterways with which Providence has blessed us. We have completed the modernization of but one other of the great segments of this system—that of the Lower Mississippi.

Five or six years ago I had opportunity to join with those many representatives of the Midwest in council as to the method by which we could strengthen national interest in the energetic development of the other parts of this great system. At that time I suggested that all these tributaries of the Mississippi and the Great Lakes comprise a single great transportation system. That it must be developed in vision of the whole and not in parts.

POLICIES LISTED

Without delaying to touch the detailed ramifications of these great natural waterways, I may well summarize their present condition and enunciate the policies of my administration in respect to them.

(1) As a general and broad policy, I favor modernizing of every part of our waterways which will show economic justification in aid of our farmers and industries.

(2) The Mississippi system comprises over 8000 miles of navigable streams. I find that about 2500 miles have now been modernized to nine feet in depth, and about 1400 miles have been modernized to at least six feet in depth. Therefore, some 5000 miles are yet to be connected or completed so as to be of purpose to modern commerce. We should establish a nine-foot depth in the trunk system. While it is desirable that some of the tributaries be made accessible to traffic at six or seven feet, yet we should in the long view look forward to increasing this latter depth as fast as traffic justifies it.

This administration will insist upon building these waterways as we would build any other transportation system—that is, by extending its ramifications solidly outward from the main trunk lines. Substantial traffic or public service cannot be developed upon a patchwork of disconnected local improvements and intermediate segments. Such patchwork has in past years been the sink of hundreds of millions of public money.

(3) We must design our policies so as to establish private enterprise in substitution for government operation of the barges and craft upon these waterways. We must continue government large lines of these works which I have mentioned amounts to projects three and four times as great as the Panama Canal. In order that there may be no failure in administration, and as an indication of our determination to pursue these works with resolution, we have in the past month reorganized the organization of this executive staff in the government. With the approval of the Secretary of War, and under the newly appointed chief of engineers, we have assigned to each of these major projects a single

responsible engineer. We thus secure a modern business organization, direct responsibility, and continuous administration. We wish to see these projects completed with all the expedition which sound engineering will permit. We shall be able by this means to secure responsibility, without question, in failure, and to give credit, without question, to the men who bring these great projects to successful completion.

IMPROVEMENT NO LOSS

At the present time we are expending approximately \$85,000,000 per annum on new construction and maintenance of these works. To complete these programs within the periods I have mentioned will require an increase in the government outlay by about \$10,000,000 per annum not including the St. Lawrence, at most, including that item, an increase in our expenditures of say \$30,000,000 a year. A considerable proportion of this will end in five years' time. It is of the nature of a capital investment.

This annual increase is equal to the cost of operating one battleship. If we are so fortunate as to save this annual outlay on naval construction as the result of the forthcoming naval conference in London, nothing could be a finer or more virtuous conversion of swords to plowshares.

To carry forward all these great works is not a dream of the visionaries—it is the march of the nation. We are reopening the great trade routes upon which our continent developed. This development is but an interpretation of the needs and pressures of population, of industry and civilization. They are threads in that invisible web which knits our national life. They are not local in their benefits. They are universal in promoting the prosperity of the nation. It is our duty as statesmen to respond to these needs, to direct them with intelligence, with skill, with economy, with courage.

A nation makes no loss by devotion of some of its current income to the improvement of its economic life. It is an obligation we owe to our children and our grandchildren. I do not measure the future of America in terms of our lifetime. God has truly blessed us with great resources. It is our duty to make them available to our people.

HOOVER SALUTE KILLS ONE AND HURTS SEVEN

MADISON (Ind.) Oct. 23. (AP) An explosion which occurred while a gun crew of Battery E, 105th Field Artillery, Indiana National Guard, was attempting to fire a salute in honor of President Hoover when his boat docked here today, caused the death of one man and the injury of several others.

Robert C. Baris, 19 years of age, of Madison, a member of the gun crew, died this afternoon at a hospital from burns and injuries. William of Stepanus, Charles Rousch and Charles Hak, three other gunners, are in the hospital receiving treatment for serious burns. Four others were injured slightly.

The explosion occurred after the sixth shot had been fired. A spark fell in a box containing fifty pounds of powder. The crew, standing near the box, was blown in all directions.

responsible engineer. We thus secure a modern business organization, direct responsibility, and continuous administration. We wish to see these projects completed with all the expedition which sound engineering will permit. We shall be able by this means to secure responsibility, without question, in failure, and to give credit, without question, to the men who bring these great projects to successful completion.

MUST DEEPEN HARBORS

(8) We shall expedite the work of food control on the lower Mississippi in every manner possible. In the working out of plans we find it necessary to reconsider a portion of the project, that is, the floodway below the Arkansas, but work in other directions that proceed in such fashion that there will be no delay of its completion under the ten-year program assigned to it.

(9) With the increasing size of ocean-going vessels and the constantly expanding volume of our commerce, we must maintain unceasing development of our harbors and the littoral waterways which extend inland from them.

(10) The total construction of these works which I have mentioned amounts to projects three and four times as great as the Panama Canal. In order that there may be no failure in administration, and as an indication of our determination to pursue these works with resolution, we have in the past month reorganized the organization of this executive staff in the government. With the approval of the Secretary of War, and under the newly appointed chief of engineers, we have assigned to each of these major projects a single

responsible engineer. We thus secure a modern business organization, direct responsibility, and continuous administration. We wish to see these projects completed with all the expedition which sound engineering will permit. SOPRANO BOOKED FOR BROADCAST

Portes Gil Appeals to Youth
of Land for Aid

November 20 as Temperance
Day to be Observed

Date of Dias Downfall Held
Fitting Anniversary

MEXICO CITY, Oct. 23. (Exclu-
sive).—President Portes Gil issued a
statement tonight containing the
most fervent appeal he has yet made
to the nation to embrace his tem-
perance campaign. In his appeal
addressed to the childhood of the
nation, the President urges them to
turn out in full force in the coun-
try-wide demonstration against al-
cohol that is to take place Novem-
ber 20, the anniversary of the
initiation of the revolution that re-
sulted in the fall of Porfirio Dias
in 1910 and the "liberation from
oppression of the Mexican people."

"There is no more suitable date
than this," the President asserts,
"to encourage release from alcohol,
the most terrible of all oppressions,
conveyer of misery, degeneration
and shame. The jails, the hospitals
and the asylums are filled with the
victims of alcohol, which has armed
the hand of the criminal in most
cases."

Nothing will impress parents more
than an innocent plea from the lips
of their children. On this date
by their public demonstration should
say to their elders: "If you desire us
to be strong, useful and moral show
us the road."

The President especially points to
the evils of alcohol as affecting the
poor Mexican homes. He refers to
the suffering the Mexican work-
man has gone through when "hun-
ger, privation, persecution has been
the result" of use of alcohol.

Alcohol, he declares, is the great-
est enemy of the Mexican work-
man and greatest deterrent factor
in the future of the country.

DR. TRAXLER
TRIAL DRAGS
AT CAPITAL

Los Angeles Physician
Defends Actions Before
State Medical Board

SACRAMENTO, Oct. 23. (P)—The
trial of Dr. Paul Traxler, Glendale,
before the State Medical Board, on
the charge of performing an illegal
operation which caused the death
of Miss Delphine Walsh, motion-
picture actress, May 3, 1928, dragged
on today and continued to-
night.

Dr. Traxler occupied the witness
stand the major part of the day,
telling of how the actress came to
him seeking relief and stating that
the charge sent to a hospital in Glen-
dale by him following his treat-
ment which, he declared, was not
of an illegal nature.

The board has dismissed the
charge filed against Dr. Roy S. Lan-
terman, former Los Angeles County
Coroner, that he performed or aided
Dr. Traxler in performing the as-
serted illegal operation on Miss
Walsh. This action was based on
the grounds of testimony inadequate
to convict.

Hearing of a second charge
against Dr. Lanterman, that he per-
formed or aided an asserted illegal
operation upon Miss Nellie White
of Los Angeles, has been continued
until the board meets in Los An-
geles, February 4, 1930.

A charge against Dr. Traxler in-
volving Miss White was dismissed
for lack of evidence.

Both doctors were tried and ac-
quitted on a murder charge in Los
Angeles Superior Court following
the death of Miss Walsh.

The Medical Board's action
against the physicians is for the
purpose of determining whether
their licenses to practice shall be
revoked.

Man Dead and
Girl Dying in
Kentucky Road

BOWLING GREEN (Ky.) Oct. 23. (P)—The body of George Sparlock,
45 years of age, of Bowling Green,
with a bullet hole in the back of
the head was found tonight in the
middle of the road near here.

Several feet away was Miss Ada
Price, 25, Bowling Green, shot
through the neck and probably fat-
ally wounded.

Peggy Paxson
Evades Search

WICHITA (Kan.) Oct. 23. (P)—
PEGGY PAXSON, 17 years of age,
whose detention Los Angeles police
have asked, and her companion,
Lucille Wallingford, 24, could not be
located here tonight after they had
appeared at newspaper offices today
and announced their intention of
making an endurance flight in
Wichita.

Police were informed a week ago
that John Paxson, Los Angeles, fa-
ther of Peggy, had reported her as
having run away from home to
follow the lure of aviation.

Mexico Invites
Spanish 'Talkies'

MEXICO CITY, Oct. 23. (P)—The
Foreign Relations Department to-
night recommended to the Treasury
Department that special law duties
be allowed talking moving pictures
in Spanish. At the same time
Mexican Consuls in the United
States were instructed to lend ev-
ery aid at their disposal to the pro-
duction of Spanish language pictures
there.

JUGO-SLAVS PROMISE TO CURB RIOTS

Anti-Italian Gestures to
Be Stopped by Belgrade
and Guilty Punished

(Copyright 1929 by Chicago Tribune)

ROME, Oct. 23. (Exclusive).—The
Jugo-Slavian government formally
has promised the Italian Minister
at Belgrade that the strictest mea-
sures will be taken to quell anti-Ita-
lian demonstrations. It was an-
nounced here semi-officially.

In addition to this Belgrade will
understand, as the result of the vi-
cious protest handed to them by the
Italian Minister, Carlo Galli, act-
ing on orders from Rome, to in-
vestigate the riots at Gravosa on
the Dalmatian coast, where two
Italian sailors were wounded, and
punish the guilty—according to dis-
patches from Belgrade appearing
tonight in semi-official papers like
the Giornale D'Italia.

Nothing will impress parents more
than an innocent plea from the lips
of their children. On this date
by their public demonstration should
say to their elders: "If you desire us

Mexico Invites
Spanish 'Talkies'

MEXICO CITY, Oct. 23. (P)—The
Foreign Relations Department to-
night recommended to the Treasury
Department that special law duties
be allowed talking moving pictures
in Spanish. At the same time
Mexican Consuls in the United
States were instructed to lend ev-
ery aid at their disposal to the pro-
duction of Spanish language pictures
there.

PICKERS PLENTY IN KERN COUNTY

Rural School Supervisor's
Observations Quoted

ARVIN, Oct. 23.—J. W. Byfield,
county rural school supervisor of
attendance, declared today there is
no shortage of cotton pickers in the
county, judging from the Kern
school records which reveal a large-
er migratory school population reg-
istered this year than last in pro-
portion to the cotton balesage of the
various districts. There is a heavier
increase of migratory pupil enroll-
ment at Shafter, Arvin, Weed Patch,
McFarland, Delano, Wasco and
Mountain View this year than last,
greater in proportion to the increase
in the amount of cotton being baled
the school supervisor said.

While there is no great shortage
of labor the cotton workers are mil-
lions around in the county in search
of a higher wage, the county school
official said, as he has met numbers
of them in his trips through the
county. The school records also
show this shifting of families
from one district to another.

GREAT STATUE PLANNED

Colossal Structure for Harbor at San Francisco Project
of California Native Sons

SAN FRANCISCO, Oct. 23. (Exclusive).—A statue higher and even
more colossal than the Statue of Liberty is planned for San Francisco
Harbor by the Native Sons of the Golden West as a monument to Cal-
ifornia pioneers.

Intention was made known today by Lewis F. Byington, chairman of
a committee appointed by the Grand Parlor to work out a definite plan
for the monument and to launch a campaign for funds.

The public park at the summit of Telegraph Hill has been chosen as
the site. Present plans include a
museum at the base of the statue
for the gathering and preservation
of historical data and relics of the
early days.

The committee intends soon to
open competition among California
artists with a suitable award for the
best design embodying the spirit of
the pioneers of California's golden
days.

The first step, according to By-
ington, will be to enlarge the com-
mittee to about twenty-five promi-
nent descendants of pioneers. With this
organization, a campaign for funds
is to be launched, principally among

BANDITS SLAY THREE JUDGES

Bulgar Jurists Murdered on
Their Way to Court

(Copyright, 1929, by New York Times)

SOFIA, Oct. 23. (Exclusive).—
Three judges on their way to hold
court were murdered in cold blood
this afternoon by bandits who
stopped their motor car.

The robbers, members of the Toos
Usinoff band which last week held
up a train from Varna to Burgas,
had been stopping every automobile
on the road today, plundering pas-
sengers. In one car they discovered
four judges on their way to Lucin-
dol. When they learned their iden-
tity they stripped the judges and
shot three. The dead are: Presi-
dent of the Court Kuratchef, State
Prosecutor Waisoff and Judge Tod.

The fourth, Stojanoff, was let off
on the plea of one robber who had
been released from prison by a rul-
ing of Stojanoff.

TWO SENSATIONAL new achievements in RADIO-PHONOGRAPH reproduction

For the first time... music from the air
or records... with the amazing realism
of the Screen-Grid Radiola or the in-
comparable Super-Heterodyne.

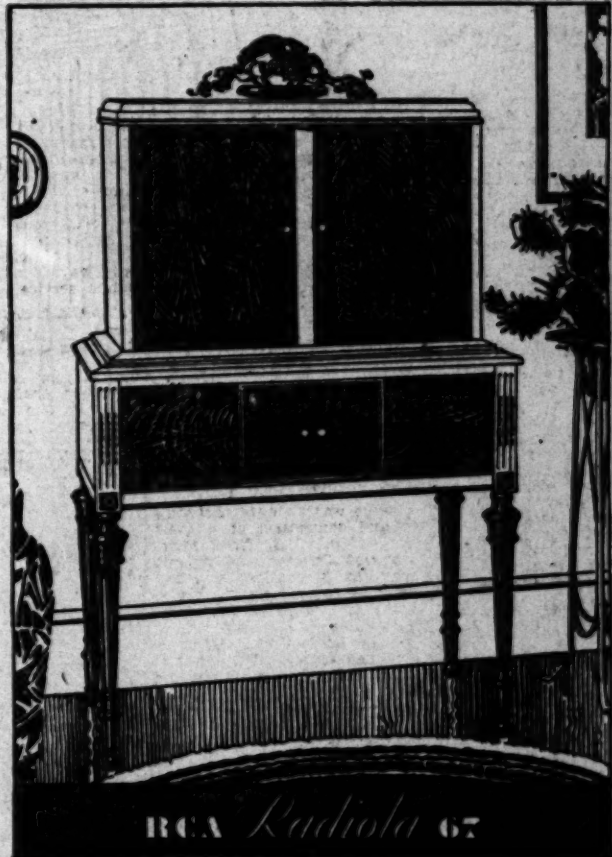

Here is front page news for every lover of fine music... the
year's greatest offering of RCA engineers. For the first time,
Radio-Phonograph combinations in Screen-Grid and Super-
Heterodyne models... complete home instruments of the
finest type... designed, built and guaranteed by RCA! Here
is music from the air that will astound you with its superb
fidelity... music from records that equals only the matchless
performance of the Radiola!

Radiola 47 is the newest RCA all-electric development in
Screen-Grid Radio combined with the Electrical Phonograph
in one exquisitely designed cabinet. It is the latest triumph
of the same RCA engineers who developed the Screen-Grid
Radiotron and the Screen-Grid Radio Circuit.

Radiola 67—the Super-Heterodyne model—is conceded
everywhere to be the last word in Radio and Phonograph
reproduction. The Super-Heterodyne is recognized by all as
the finest achievement of the Radio art. Combined in a strik-
ingly handsome cabinet with the electrical phonograph, this
remarkable instrument becomes the outstanding triumph in
complete home entertainment!

RCA Radiola 47—The newest RCA "all-electric" development
in Screen-Grid radio combined with the phonograph. Radio and
phonograph utilize the same improved built-in Electro-Dynamic
reproducer. "Music from the air or record." \$275 (less Radiotrons).

RCA Radiola 67—The new Super-Heterodyne combination with
RCA Electro-Dynamic loudspeaker giving electrical reproduction of
records. The complete home instrument brings to you as well "Music
from the air or record." \$250 (less Radiotrons).

Both Radiolas 47 and 67 embody the famous RCA electro-
dynamic speakers which reproduce music as well as voice—
in any desired volume—with a fidelity unequalled by any
other method of sound reproduction. You get the freedom
from distracting noises and electrical hum without the costly
sacrifice of loss in fidelity and tone range... without that
weakening of power and dulling of low and high notes which
owners of ordinary radio sets must suffer when hum is
reduced in defiance of electrical research and experience.

Here are the instruments of the future. We invite you to see
and hear them at your nearest RCA dealer. A single dem-
onstration will give you a new conception of Radio and
Phonograph enjoyment. It will strengthen your belief more
than ever in RCA as the pre-eminent builder and designer
of fine Radio instruments.

The new Radiolas may be purchased on the convenient RCA
Time Payment Plan which enables you to enjoy
the world's finest music from Radio or Phonograph
while you make easy monthly payments.

Ring Your Own Cash Register!

Have you thought of going into business for yourself?

Have you grown tired of taking it easy and determined to get into something that will keep you busy and interested?

Have you decided to exchange your orange ranch for a store in the city?

Have you a boy growing up, whom you'd like to start in an establishment of his own?

Every day in the year, the Los Angeles Times prints columns of business opportunities. These should be checked over and carefully investigated.

Not every advertisement will prove to be exactly what you want, that would be too much to expect.

In buying a business as in buying a suit of clothes, the purchaser must be willing to put forth a little effort on his own part.

One thing is certain, the quickest and easiest way to find a business opening is to watch the columns where businesses are advertised and sold.

By keeping an eye on the "Business Opportunities" in the Times almost any type of business may be found—big or little, outdoor or indoor, retailing, manufacturing, selling.

HIGH LIGHTS OF HISTORY 1480

The Story of the World War 250—The Advance to the Vesle.

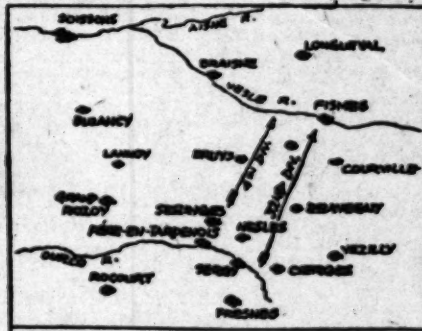

by J. CARROLL MANSFIELD

BEATEN ON THE OURCQ (JULY 28-AUG. 1, 1918), THE GERMANS RETREATED RAPIDLY TO THE VESLE, EIGHT MILES TO THE NORTH, WITH THE AMERICANS AND FRENCH CLOSE AT THEIR HEELS.

THE 32ND AMERICAN DIVISION (MICHIGAN AND WISCONSIN NATIONAL GUARD) COMMANDED BY GENERAL HAHN WITH THE 4TH DIVISION, WHICH HAD JUST RELIEVED THE 42ND, HOTLY PRESSED THE RETIRING GERMANS WHO FOUGHT SAVAGELY IN RETREAT.

THE ENEMY SUCCEEDED, THOUGH WITH GREAT DIFFICULTY, IN CARRYING AWAY MOST OF HIS HEAVY GUNS, BUT WAS FORCED TO DESTROY OR ABANDON VAST STORES OF MUNITIONS AND SUPPLIES, WHILE THE PURSUING ALLIES TOOK MANY PRISONERS.

AUGUST 3 THE 32ND DIVISION REACHED THE VESLE AT FISMES. THE AMERICANS PROMPTLY SEIZED THE RIVER CROSSINGS AT A NUMBER OF POINTS AND RUSHED UP THEIR ARTILLERY TO STRENGTHEN THE NEW LINE ALONG THE VESLE. TOMORROW THE CLOSE OF THE 2ND DAY.

UTILITY PROFITS

Twelve MonthsIncome Advances 32 Per Cent
Over Last YearEarnings on Preferred Stock
Equal \$30 a Share

Net profits of the Los Angeles Gas and Electric Corporation reached a total of \$5,703,132.92 for the twelve months closed September 30, last, after all charges, including taxes, depreciation and amortization, which is equivalent to \$30.73 a share on the average amount of preferred stock outstanding, according to a statement issued yesterday by the company.

This compares with \$22.24 a share reported earned in the corresponding period ended September 30, 1927, equivalent to \$25.45 a share on the average preferred then outstanding and represents an increase of \$1,448,877.66, or more than 32 per cent.

After providing for preferred dividends there was a balance available for dividends on the common stock, all of which is owned by the Pacific Lighting Corporation, of \$4,804,687.82.

Gross earnings of the corporation over the twelve months period aggregated \$24,149,882.87, as compared with \$21,753,478.17 earned in the preceding year, an increase of \$2,396,404.70, or more than 11 per cent. Operating expenses and taxes, on the other hand, increased \$746,420.90, or slightly more than 6 per cent, from \$11,932,768.95 or \$12,079,180.94 for the period just closed.

The net operating earnings after deductions for operating expenses and taxes only, amounted to \$11,470,794.85, an increase of \$1,600,887.71, or nearly 17 per cent.

Comparative figures for the twelve months ended September 30, 1927 and 1928, respectively, follow:

	1927	1928
Gross earnings	\$21,753,478.17	\$24,149,882.87
Operating expenses and taxes	\$11,932,768.95	\$12,079,180.94
Net operating earnings	\$9,820,709.22	\$11,470,794.85
Depreciation and amortization	\$1,150,000.00	\$1,150,000.00
Net income	\$8,670,709.22	\$10,320,794.85

Bendix Foreign
Trade Expands

PARIS, Oct. 23. (Exclusive)—Bendix, president of Bendix Aviation Corporation, and Albert Bradley, vice-president of General Motors Corporation and chairman of the finance committee of Bendix, today reported that they have closed several new contracts in Europe and laid the foundation for a considerable new business abroad.

NEW YORK, Oct. 23. (Exclusive)—Bendix Aviation Corporation's nine months statement of operations to be presented to the board Monday will show approximately the earnings predicted earlier in the year. Walter J. Buttner, vice-president, stated today declaring that the General Motors Corporation, which owns 500,000 shares, was given the Bendix Company unusual co-operation.

BELL JOINS ANDERSON
R. W. Bell, well known in Southern California financial circles, has become associated with W. N. Anderson & Co., investment bankers, it was announced yesterday by officials of the company.

BANK TALK HOLDS
BOSTON, Oct. 23. (Exclusive)—The Federal Reserve Bank here made no announcement today regarding its rediscount rate of 6 per cent.

Tone of Trade
in Local Area
Fairly Brisk

Although there is little or no future orders, the present wholesale and manufacturing business based on immediate sales is fairly good, according to the weekly summary of business in the Los Angeles metropolitan area issued yesterday by the Bradstreet Company. The trade generally is still complaining about collections which are 5 to 15 per cent below October, 1927.

Most of the picture companies are slowing up on production, having practically completed this year's program. Several studios were shortly shut down until after the turn of the year.

Employment conditions which have been very good up until the last, have since that date shown indications of weakening.

The report also cited a material reduction in revenues of the independent crude oil producers attending the drastic cut enforced in California in Southern California fields.

Ship Line Loses
Rail Rate Fight

WASHINGTON, Oct. 23. (P)—The Luckenbach Steamship Company lost its attempt today to have the Interstate Commerce Commission hold unreasonable the railway freight rates between New Orleans and Mobile and interior points in the southeastern territory of the United States, which was sustained by the steamship company.

Complaints had been made by the Luckenbach company that rates maintained by carriers place it in unfair competition with transcontinental railroads handling freight between the same territory. The steamship company was held by the commission to be acting as a free-lance in the transportation of cargo and was refused to place itself in a position where its rates and charges might become subject to regulation by the commission.

A. J. B. Chapter
Names Official

Russell C. Lemmon, assistant cashier and assistant treasurer of the Farmers and Merchants' National Bank, has been elected secretary of the A. J. B. chapter of the Los Angeles chapter of the American Institute of Banking, succeeding Harold R. Smith, who was recently made first vice-president, to fill the vacancy created by the resignation of H. W. Sanders when he accepted the secretaryship of the California Bankers' Association.

Mr. Lemmon has been active for a number of years in the American Institute of Banking, having been a member of the board of governors from 1926 to 1928. As second vice-president he will assume the chairmanship of the board of consultants and of the membership committee. C. E. Jones is president of the chapter.

Net Income of
Eastern Rail Up

NEW YORK, Oct. 23. (Exclusive)—New York, New Haven and Hartford Railroad Company reported today a September quarter net income of \$6,329,693 after charges, equal after guarantees and preferred dividends to \$2.45 a share on 1,571,179 common shares, against \$4,909,949, or \$2.42 a share in the preceding quarter and \$6,047,028, or \$2.59 a share in the September, 1927, quarter.

The net income for the nine months closed September 30, last, amounted to \$14,644,022, or \$7.24 a common share. This compares with \$9,429,672, or \$3.94 a common share in the similar period last year, and represents an increase of \$5,214,350, or more than 50 per cent.

AMERICAN PNEUMATIC
SERVICE NET UP

BOSTON, Oct. 23. (Exclusive)—Net income of the American Pneumatic Service Company for the quarter ended September 30, last, was \$183,829, after all charges and taxes, equal after preferred dividends, to 31 cents a share on 159,881 common shares, against \$124,414 before taxes in the 1927 quarter, or 2 cents a common share, according to a report issued today. For the first nine months of this year, net income was \$455,049 after taxes, or 47 cents a common share, as against \$163,410, before taxes, equal after first preferred dividends to 67 cents a share on the second preferred stock in the 1927 period.

GAS PRICE RUMORS DENIED

Refiners and Marketers Assent Reductions Would Not
be Justified; Making Fair Profit, is Opinion

BY EARLE E. CROWE
Gasoline marketers in Los Angeles joined yesterday in statements declaring that reductions in the retail price of gasoline should not logically follow the recent severe slash in the price of crude oil in the principal Southern California fields. These expressions came from small and large companies alike in response to an impending gasoline war.

Without exception the companies commenting on the situation took the position that the differential between the cost of crude oil and the retail price of gasoline is now at a point where the refiner will show a fair profit for the first time in months. The refiners and marketers, they said, would hardly contemplate a cut in the gasoline price when it is clear that such an action would be tantamount to throwing away the chances for a living wage.

GEORGE L. MACBRIE, president of the Wilshire Oil Company, one of the largest of the independent companies, summarized the situation when he said that "oil companies can't exist if gasoline is cut in price right after the war has been taken out of crude-oil profits."

Mr. MacBrie contends that crude-oil prices should have been reduced long ago in order to allow the refiner and marketer to make a fair profit. Referring back to the bringing of the Wilshire's Buckeye well from the deep zone at Santa Fe Springs, which inaugurated the period of flush production, he said: "Gasoline was selling then at 19 cents a gallon. The large buyers of crude raised the price at that time when it would have been better to lower it. Gasoline prices were left unchanged and consequently the refiner has not made any money."

The producers of crude oil obviously would be unjustified. From L. P. St. Clair, executive vice-president of the Union Oil Company, came this terse comment on the rumors of gasoline cuts: "There is nothing in the present situation that warrants a reduction in the retail price of gasoline or crude-oil products."

Mr. St. Clair, it will be remembered, was the prophet who predicted the drastic cut in crude-oil prices announced the first of this week, and who said that gasoline prices would not be disturbed, principally because the crude oil would only be local to Southern California and not State-wide.

Another independent refiner and marketer, William J. Reid, president of the Hancock Oil Company, made this statement: "The Hancock Oil Company sees no occasion for a cut in gasoline or refined oil prices and feels that the cut in the price of crude oil was only justified inasmuch as the refiner is compelled to put in additional storage and large investment in the Western Coast Oil Company, both of which similar opinions. Mr. Reid added that the refiners now are in position to make the first profit since last March."

S. M. Bateman, speaking for the Macmillan Oil Company, said he did not look for a cut in the price of gasoline. The present price is not out of line as compared with other commodities, and we call for no reason for a change."

Clarence M. Culler, president of the Richmond Oil Company, one of the largest marketers of gasoline, declared: "There is no economic foundation for a cut in gasoline. Line prices will be reduced. The cut in crude oil was justified, and the relation between gasoline and crude prices has been restored to a healthy basis."

London Market
Quiet and Firm

LONDON, Oct. 23. (Exclusive)—The market was cheerful with trading quiet. Transvaal was firm, margarine and molasses in good demand, talking machines steady and artificial silks had a better tone. Rubbers were easier. The mining list was irregular with Rio Tinto and Rhodesia in supply, while De Beers was steady. Oils and tobacco were quiet. Ford Motors, Ltd., held around 13 3/16. Brazilian Traction around 68 and International Nickel around 52.

The gilt-edged division was very firm, foreign quiet, home rails steadier and Canadian Pacific strong.

ENGINEERING UNIT
ELECTS PRESIDENT

A. V. Wainwright, until recently president of the California Consumers' Company, has been elected president and a director of the United States Engineering Company succeeding Earl P. English, who resigned to assume an executive position in connection with the entry of the Standard Oil Company, California into the public utility field. United States Engineering directed Pacific Public Service Company under the Pitkin regime. Mr. Wainwright was formerly president of Inland Power and Light Corporation, a former Pitkin utility.

AIRCRAFT ENGINE
OUTPUT BOOSTED

DETROIT, Oct. 23. (Exclusive)—Production of the Continental Aircraft Engine Company will be immediately stepped up, Robert H. Day, vice-president, stated today upon learning that the company's A-70 engine had been selected for the government tests. Eleven companies have placed orders for the engine and deliveries will be made at once, he said.

FRUIT EXPRESS LETS
RAIL CAR CONTRACT

SAN FRANCISCO, Oct. 23. (P)—H. Giddings, vice-president and general manager of the Pacific Fruit Express Company, today announced that an order had been placed with car builders for 400 new freight refrigerator cars to cost about \$1,000,000. Giddings said the purchase had been authorized by the owner companies, the Union Pacific and Southern Pacific Railroad companies, to protect the perishable traffic originating on the rails of the Pacific Fruit Express Company's contract lines and short-line connections.

OIL CONCERN
PLANS HUGE
EXPANSIONRoyal Dutch Proposes to
Increase Its Capital by
\$160,000,000

NEW YORK, Oct. 23. (Exclusive)—Stockholders of the Royal Dutch company will meet November 6 to act upon a proposal to increase its authorized capital stock of the company from 600,000,000 guilders to 1,000,000,000, according to cable reports from Amsterdam today and confirmed by the American representative of the company.

In American money the capital increase would amount to \$160,000,000. Authorization of a bond issue of \$100,000,000 is included in the plan which the shareholders of the company will be asked to approve.

It was said in New York by Richard Alrey, president of the Atlantic Petroleum Company, that one of the objects of the meeting is to change the articles of association to comply with the provisions of the new company act of Holland. The directors decided to make use of that opportunity to obtain approval of a plan to authorize a capital increase.

The present capitalization of the Royal Dutch company consists of 600,000,000 guilders, or \$160,000,000, and capital stock of \$160,000,000. Capital is divided into three classes of stock: 1. Ordinary shares, which are the ordinary shares, of which approximately 1,190,000 are outstanding.

The par value of the ordinary shares is 100 guilders, or \$25.00. The par value of the preference shares is 100 guilders, or \$25.00. The par value of the preference shares is 100 guilders, or \$25.00. The par value of the preference shares is 100 guilders, or \$25.00.

September Net
of Rail Line Up

NEW YORK, Oct. 23. (Exclusive)—New York, Chicago and St. Louis Railroad Company today reported its September net income of \$3,300,000, or \$1.12 a share on 2,940,000 shares, after charges, equal after preferred dividends to \$1.12 a share on 2,940,000 shares, against \$2,774,000, or \$0.94 a share in the 1927 quarter, and \$2,774,000, or \$0.94 a share in the 1927 quarter.

Net income for nine months to September 30, last, was \$28,831,033, or \$1.12 a share on the common stock as compared with \$23,946,145, or \$0.81 a share in the 1927 quarter, and \$23,946,145, or \$0.81 a share in the 1927 quarter.

Gilmore Oil Unit
Pays Dividend

Declaration of a cash dividend of 100 per cent on the capitalization of \$100,000 of the Gilmore Oil Plant No. 1, half interest, of which is owned by the Gilmore Oil Company, was announced yesterday through Earl B. Gilmore, president of the two companies.

The Gilmore Oil Plant No. 1, is a unit in a group of subsidiary and partially owned interests of the Gilmore Oil Company, which has substantial earnings in these subsidiaries reflect an increase in the earnings of the parent company, resulting in further benefits to the stockholders, Mr. Gilmore stated.

Realty Concern
to Extend Field

Lawrence & Co., headed by T. J. Lawrence, Los Angeles real-estate operator, was yesterday granted a license by the California Corporation Department to engage in a general investment brokerage business and originate issues for public participation.

Mr. Lawrence, who is a member of the Los Angeles Realty Board, has been a subsidiary in Southern California for the past twenty-three years. "I have decided to expand the operation of my organization to embrace the financing of any realty holdings I may have or may acquire," he stated.

Chesapeake Rail
Reports Income

NEW YORK, Oct. 23.—Net income of the Chesapeake and Ohio Railroad Company was reported here today as \$2,382,909 for the nine months closed September 30, last, equal after preferred dividends to \$1.76 a share on 1,356,000 common shares, against \$1,842,967, or \$1.36 a share on 1,356,000 common shares in the similar period last year.

The net income for the September quarter totaled \$832,280, or \$0.61 a share on 1,356,000 common shares, against \$723,400, or \$0.53 a share in the quarter ended September 30, 1927. September net income totaled \$2,021,521, against \$1,773,740 in September, 1927.

OIL INCOME GAINS

NEW YORK, Oct. 23. (Exclusive)—Transcontinental Oil Company reported today a September quarter net income of \$1,270,000, or \$1.27 a share on 1,000,000 common shares, against \$825,065 in the September, 1927, quarter, an increase of \$444,935, or more than 50 per cent.

EUROPE LESS PESSIMISTIC

Fewer Complaints Heard from Across Atlantic Than
for Any Year Since World War

BY JOHN F. SINCLAIR
(Copyright, 1928, by North American Newspaper Alliance)
NEW YORK, Oct. 23.—Fewer pessimistic reports have come out of Europe this year than any year since the war. England, which has tried hard to maintain financial stability, has suffered the worst. Her Lancashire country still lags under an industrial blight, but scores of new building up as a great manufacturing center. Her taxes are high—hundreds of the country homes of her former titled gentry are for sale—but she has more people employed today than at any time in her history.

Across the channel conditions are far better. France just now is the greatest industrial center on the continent—she even exports Germany. She has no unemployment. Instead, she is importing thousands of Belgian, Italian and Polish workers. She is building bridges, constructing highways, expanding factory development everywhere. Her money is now stabilized and the tourist trade brings in hundreds of other millions.

Belgium and The Netherlands—economically and industrially—are each making more money than they spend and so building up a little surplus every year. Poland, Yugoslavia and Rumania have gone to work. Their national balance sheets show it.

Austria, upon whom a major financial operation was performed by the peace conference, is recovering after ten years of economic convalescence. Italy, too, is busy. But Germany has become a great economic concern. Her factories are new and up to date. She is ready to spend money on her next big expansion. Russia has largely turned from politics to business. She is spending millions on her factories, her highways, her water power development and railway construction. Europe has decided to forget the war and to go to work.

When I asked H. T. Pearson, president of the F. W. Woolworth Company, for his opinion on business conditions throughout the country, and whether the recent stock market decline would have a tendency to slow them up, he replied: "Business conditions, as far as we are concerned, are very satisfactory. We look for a substantial increase in our business over a year ago. The manufacturers who supply us with merchandise are making prompt delivery at stable prices and no disturbance in the market is being offered. This all points toward stability in manufacturing and retailing."

Size of Travel
Check Reduced

Adoption of a modified American Express travelers' check, reduced to the approximate size of the U. S. United States government paper money, was authorized yesterday at a meeting in New York of the directors of the American Express Company, now affiliated with the Chase National Bank. The new checks will be the exact size of the bank pocket check as recommended by the Bureau of Standards of the Department of Commerce in its simplification program.

More than \$5,000,000 of American Express travelers' checks have been circulated throughout the world since they were introduced as a medium of exchange thirty-eight years ago, according to the announcement.

DU PONT COMPANY
INCOME POINTS UP

NEW YORK, Oct. 23. (Exclusive)—Consolidated net income of the E. I. Du Pont de Nemours & Co., totaled \$20,029,831, after taxes for the quarter closed September 30, last, equal after preferred dividends, to \$1.80 a share on 10,522,461 average common shares outstanding. This compares with \$19,581,897, or \$1.83 a share on 10,522,461 common shares in the September 1927 quarter.

How Much
Do Your Investments
Yield?

VERY few investors are enjoying an average net return of 6% on their holdings after deducting Federal Income Tax and California Personal Property Taxes.

California District Bonds offer this liberal yield at today's prices. These bonds are payable principal and interest from a direct ad valorem tax collected with and as a part of general City and County taxes from which it cannot be separated.

Regardless of the character of your other holdings, we believe you will well afford to place at least a part of your funds in District Bonds where principal is secured and a liberal income assured and dependable.

We shall be pleased to mail you a list of selected Los Angeles City and County District Bonds to yield 6% tax free. The coupon below is for your convenience in sending for same.

[We Recommend]
for Appreciation Possibilities and
6.50% Fixed Income

The daily sales volume of bonds has increased 40% within the week. Still bond prices are low and values are high. The chaotic condition of the stock market is demonstrating the value of investing in high-grade fixed income securities, such as General Water Works & Electric Corporation Convertible Gold Debentures.

In addition to a liberal 6.50% fixed income, the issue offers many appreciation possibilities through the conversion feature. For example, after all deductions, \$2,500 to each \$1,000 of debenture.

Price 95%
and interest
to yield
about 6.50%

Further information regarding this great utility system, which extends from Pennsylvania and New York westward to California, will be furnished on request.

Index of Fifty Stocks
to June 12 Last

NEW YORK, Oct. 23. (Exclusive)—Stock market action was steady and most half-colored news of recent financial history was sweeping doubts, but there was nothing to suggest that the modern era of automaticity was over. The most dramatic move of the day was the rise of the index of fifty stocks to 112.12, from 111.12 on June 12 last.

Scenes of the day were \$8 to \$9 a share and most of the day's trading was done in the 100,000 in paper volume in the brief interval between the most dramatic move of the day was the rise of the index of fifty stocks to 112.12, from 111.12 on June 12 last.

Would you SMILE at this?

IMAGINE A BIG-TOWN FINANCIAL DIRECTORATE . . . devoting abundant energy . . . and personal rivalry . . . in an attempt to keep a record . . . of but ONE loan-loss in 36½ years . . . when more profits might be made by greater risks!

Well, that's the small-town, old fashioned directorate of the **MUTUAL BUILDING AND LOAN ASSOCIATION OF POMONA**, which holds three State Records as a result of attending strictly to business. Our profits are made by economies rather than by risks.

WE HAVE NO BIG-TOWN NAMES . . . and no show-window fortune-tellers . . . on the directorate of the **MUTUAL BUILDING AND LOAN ASSOCIATION OF POMONA** . . . because every director understands . . . that his personal fortune is at stake . . . in the unlimited liability back of \$3,000,000 paid-in capital, surplus and reserve.

So, we CAN compete and DO compete, successfully, for your investment attention to the 6% certificates of the **MUTUAL BUILDING AND LOAN ASSOCIATION OF POMONA**. With \$14,000,000 resources, assuring your convenient withdrawal of funds, by investment in monthly-payment, amortizing trust deeds.

ONE HOUR'S FREE PARKING, in the basement-garage, just South of 7th Street, on the West side of Spring Street. Please take the elevator to our inexpensive 10th floor offices, where we'll gladly validate your parking-ticket.

COUNCIL PASSES
WINE TONIC BANRandall Ordinance Voted
for UnanimouslyCommittee Will Work Out
Future AmendmentsAdvocate Urges Blockade
of Holiday Trade

Council yesterday passed the wine tonic ordinance proposed by Councilman Randall which makes it punishable by fine and imprisonment to "sell, serve or give away" any tonic or medicinal preparation containing more than one-half of 1 per cent of alcohol. The vote was unanimous.

However, a committee of various interested parties will meet to work out amendments which may be adopted in the future, according to the statement of Randall just before the vote was taken. He said he was agreed upon between himself and Dr. Charles P. Nelson, president of the Los Angeles Church Brotherhood, and a member of the Los Angeles County Medical Association, which vigorously opposes the ordinance in its present form.

Randall said he wanted this ordinance adopted now so as to prevent

BANDIT GIVES DRIVER
FARE AND TAKES AUTO

A bandit whose distinguishing marks were a pair of green gloves and a hip-pocket flask yesterday held up George M. Loveland, manager of a Safeway store at 1464 Santa Barbara avenue, ordered him to drive several blocks, and then, after learning he had no money, liberated his captive and fled in the latter's car. Loveland reported to police. The robber accosted him in front of his store as he returned from lunch, Loveland said, and covering him with a gun commanded

him to "get in there and drive me away from here." To the bandit's repeated demands for the "restless" you were taking to the bank, Loveland insisted he was without a penny. At Exposition Boulevard and Arlington avenue his green-gloved captor became convinced Loveland was telling the truth. Suddenly he stopped the car, gave Loveland 10 cents for car fare, let him go and drove away, promising to leave the machine at Wilshire Boulevard and La Brea avenue. He failed to keep the promise.

"MYSTERY DEATH" DUE
TO NATURAL CAUSES

An autopsy performed late yesterday disclosed that George L. Flannagan, 62 years of age, of 1632 Crest Drive, died of natural causes. The coroner had ordered an autopsy following an undertaker's report that the body had turned black soon after death yesterday morning. Flannagan died while alone in his home. Later his wife and a cousin, Roy M. Gotrow of 1322 1/2 West Sixth street, found him dead. Dr. Joseph Sandy of 8815 West Fifth street refused to sign a death certificate. The body was taken to the H. C. Smith mortuary, Culver City, and later the coroner was notified of the sudden darkening of the skin.

College to End
Drive for Funds

To make way for the Community Chest campaign, volunteer workers for the immaculate Heart College will discontinue public subscription solicitations after a final report meeting in the Biltmore at noon tomorrow, G. O. Clarken, executive secretary of the drive, told more than 100 campaigners yesterday.

The grand total for the drive now stands at \$90,575 after yesterday's \$4715 were reported yesterday by ten members. The gifts of Mrs. E. J. Montague, \$1000; Jacob Wiltenberg, \$1000; Mrs. Lucien N. Brunswig, \$500, and \$8000 from the Long Beach unit were reported as special gifts by P. J. McGarry, president.

LIGHT COST MAP READY
The street-lighting engineer yesterday submitted to Council the assessment district map for the installation of lighting appliances in La Brea avenue between Franklin and Fountain avenues. It was referred to the Traffic and Lighting Committee.

HALLOWEEN PARTY
Arkansans, Kentuckians and Tennesseans will join in a Halloween party in Veterans' Hall, 540 South Hill street, next Tuesday night. Three State societies postponed their opening rallies previously scheduled for tomorrow night, and will unite in this party instead.

AIRPLANE
NEWS
EXCHANGE

(Not all the interesting and up-to-the-minute news of the day finds a place on crowded news or news. Every evening The Times conducts a news exchange by airplane. By Western Air Express, T.A.T. and Standard lines papers of other cities are brought to Los Angeles by airplane. Washington, D. C., contributes the first news from the White House and the Capitol. Chicago, Detroit, Kansas City, Salt Lake and Phoenix are just a few of the cities whose news is brought to Los Angeles by airplane. The exchange is a large one, and the Times is able to give its readers the latest news from all parts of the world.)

ANY CRANBERRIES?
Chicago Tribune, Oct. 23. Department of Agriculture officials estimate that this year's turkey crop will be 9 per cent larger than last year. The condition of the young birds now being prepared for market is excellent. The turkey crop is expected to be larger than last year's, and the quality is expected to be better. The turkey crop is expected to be larger than last year's, and the quality is expected to be better.

MOTION IS SECONDED
Kansas City Star, Oct. 23. When this paper quotes a citizen on any subject, we wish he would not deny the interview to his friends. We hate to speak of the matter again, but such denials are annoying to us. If you are made to say something in this paper that you did not, or disremember saying, please call in and say so, and tell us who did say it.

TEAR
Kansas City Times, Oct. 23. When Shelt White, city jailer, answered the telephone at police headquarters at 4 o'clock yesterday afternoon, a woman's voice carrying a tone of indignation told him that a woman named White was in the shadow of the colored Baptist church at Broadway and Fourth street. Police officers were shocked. Three of them left forthwith for the scene. On returning one of the officers stepped up to the desk. "Pshaw," he exclaimed. "Judge Shaw? He's upstairs. Just a minute, I'll call him," said White. "No, pshaw," repeated the officer. "It was just four university boys playing mumble jagg in the parking."

STORK RACE
Washington (D. C.) Star, Oct. 23. "No charge for extra passengers," madame said to the taxi driver who raced the stork and lost. The race started in the 800 block of B street southeast. Mrs. Eutene Armstrong had summoned the cab to her home. "Drive me to Gallinger Hospital in a hurry," she exclaimed. The stork, a large white bird, was seen in the air. The taxi driver, a man in a white uniform, was seen driving the cab. The race was a close one. The stork won, and the taxi driver was fined.

COTTON
Phoenix (Ariz.) Republican, Oct. 23. Maricopa county's cotton harvest will be finished on normal schedule without serious loss due to a shortage of pickers. A. T. Taber, manager of the Arizona Cotton Growers Association, announced yesterday. He has just completed a survey of the situation in co-operation with the labor service department of the Maricopa County Farm Bureau. Growers are urged to be patient until after the lettuce thinning is over, early in November, when an ample labor supply is foreseen.

TO PAY A FINE?
Salt Lake Tribune, Oct. 23. The quarters of the Mutual Production Company, 18 West Fifth street, were broken into some time Saturday night, and \$4 in pennies stolen, according to a report to police Sunday.

**COUNTERFEITER
Given Sentence**
United States District Judge James Crawford yesterday sentenced J. J. Crawford, Jr., to an eighteen-month term in the government penitentiary for counterfeiting silver dollars. The defendant was found guilty by a jury after a previous trial resulted in a dismissal. Last May Crawford was arrested on a charge of killing his father, Jack Crawford, Sr., a policeman. He pleaded self-defense, stating that his father was attacking his mother during a family quarrel.

**MRS. WILLIAMS RITES
TO BE THIS AFTERNOON**
Funeral services for Mrs. Celeste Edith Williams, 67 years of age, prominent in the musical activities of the Los Angeles Christian Science Church, will be conducted today at 2 p.m. at the Neil and Towne Chapel, 1751 East One Hundred and Second street, Compton. Burial will be in Inglewood Park Cemetery. She leaves one son, Ernest B. Williams of 1013 East Sixty-eighth street, Inglewood.

**GUN-DUN DINERS
HOLD-UP DINER**
Proprietor of Lunch Wagon Robbed of \$20 as he Waits on Couple

After ordering coffee for two, a bandit couple yesterday held up Phil Diner, proprietor of a lunch wagon at Vernon avenue and Angeles Mesa Drive and robbed him of \$20. Diner reported to police. As Diner turned to draw the coffee the man commanded him: "Stay where you are," and while the woman covered him with a gun her companion rifled the cash register.

67 PRIZES
VALUE - OVER \$1100.00
FOR BEST LETTERS ON
BEN-HUR DRIP COFFEE

THE prizes listed below will be awarded for the best letters telling of the benefits obtained through the use of BEN-HUR, the original vacuum-packed Drip Coffee, made in any of our Healthful Coffee-Making Appliances. We are spending large sums of money in an endeavor to educate the public to the proper healthful way of preparing coffee so as to make it not only more delicious but also a beneficial part of the meal. This contest is being conducted for the purpose of providing additional material for use in our educational programs. We accordingly reserve the right to use any letters received.

HERE ARE THE
PRIZES

For what we consider the best letters setting forth actual experiences of results with BEN-HUR Drip Coffee, made by the healthful filtration method, we will award the prizes listed below:

FIRST PRIZE \$100.00 in cash and one BEN-HUR DeLuxe All-China Coffee-Making Ensemble.

SECOND PRIZE \$75.00 in cash and one BEN-HUR DeLuxe All-China Coffee-Making Ensemble.

THIRD PRIZE \$50.00 in cash and one BEN-HUR DeLuxe All-China Coffee-Making Ensemble.

4th to 16th PRIZES \$50.00 coffee sets awarded, 1 each in 12 districts (see explanation below).

17th to 67th PRIZES One BEN-HUR DeLuxe All-China Coffee-Making Ensemble, Value \$5.75 each.

12 Separate District Prizes

12 beautiful gold decorated all-china coffee sets, consisting of one Ben-Hur DeLuxe All-China Coffee-Maker, Sugar and Creamer, 12 Coffee Cups and Saucers, 12 Cake Plates—all richly decorated in gold—highest quality Franciscan China, and valued at \$50.00 per set, will be awarded, one to the person sending in the best letter from each of the following districts:

- | | |
|-----------------------------------|--|
| (1) City of Los Angeles | (7) Riverside County |
| (2) Pasadena | (8) Imperial County |
| (3) Long Beach proper | (9) San Diego County |
| (4) Balance of Los Angeles County | (10) Ventura, Santa Barbara and San Luis Obispo Counties |
| (5) Orange County | (11) Balance of Southern California |
| (6) San Bernardino County | (12) State of Arizona |

Winners of other prizes not eligible to District Prizes.

Send for literature explaining why and in what way BEN-HUR Drip Coffee, made in any one of our several Ben-Hur Coffee-Making appliances, is more healthful and delicious. Address Contest Dept., Joannes Corp., 800 Traction Ave., Los Angeles, Cal.

Lined Up on Olive Street for Annual Once-over

Commissioner Thorpe and Chief Davis on Left

Freshmen Lose
in Pushball and
Tie-up Contests

(Illustration on Picture Page)
Too much enthusiasm lost instead of won the annual pushball contest and tie-up for the freshmen in their forty-ninth annual fight with sophomores of the University of Southern California on Harvard Field yesterday afternoon.

COURT MAKES RULING
ON OIL PIPE DEVICE

A decision has just been rendered in the United States District Court by Judge Manning of patent litigation that has been closely followed by the oil industry. The Patterson-Ballagh Corporation, manufacturers of a rubber drill pipe and casing protector, known as a "rubber doughnut," brought suit against the Eno Rubber Corporation and the Rotary Specialties Company for infringement of what is known as the Bettie patent No. 1,978,091, of which claims under Nos. 2 and 3 were adjudicated by the decision of Judge Manning. The same court issued a writ of injunction against the defendants, ordering them to cease manufacture, sale and distribution of products infringing Bettie's patent, and to pay judgment and damages. According to J. Courtney Ballagh, general manager of Patterson-Ballagh Corporation, the decision validates the patent.

POLICEMEN
UNDERGOING
INSPECTION

Men Spick and Span in
Blue Uniforms, Chief and
Commissioners Find

On one thing members of the Police Commission and Chief Davis expressed themselves in harmonious agreement yesterday. They were unanimous in their declarations that members of the police department changing from the drab to blue uniform at the opening of the semiannual inspection were 100 per cent in proper trim.

The system of the inspection was changed this year. Instead of having the various subdivisions' personnel grouped at the Coliseum, the inspection party consisting of commission members, Chief Davis, Assistant Chief Finlason and deputy chiefs, visited the subdivision headquarters. This, the Chief explained, saved time and eliminated the necessity of taking the men off duty for any length of time.

Yesterday the members of Central division, traffic division, detective bureau and motorcycle squad were lined up on Olive street between First and Second streets and received the official O. K. Other divisions visited were Newton, Hollywood, Lincoln Heights, Highland Park, Van Nuys and Hollywood. Today the personnel of Georgia street, University, Seventy-seventh street, Wilmington, San Pedro, Venice, West Los Angeles and Wilshire divisions will be inspected.

OCCIDENTAL'S CO-EDS
TO DANCE TOMORROW

Co-eds of Occidental College will give their annual Halloween costume dance at 8:30 p.m. tomorrow in the College Union. The affair is sponsored by the Associated Women Students and arranged by the executive and social committees. It will be preceded, at 6 p.m., by a banquet tendered the freshmen class by the juniors in the College Union dining-room. Prof. and Mrs. Walter E. Hartley and Dr. and Mrs. Hardee Erdman will be guest of honor. It was announced yesterday that a new \$6000 organ has been installed in the music building at the college. The instrument is the gift of Almer Newhall, president of the San Francisco Chamber of Commerce, and a member of Occidental's board of trustees.

ATTORNEY'S WIFE FREED
After giving testimony that her husband deserted her on June 10, 1928, Mrs. Clara Boeke was granted a divorce yesterday by Superior Judge Guerin from Richard Miles Boeke, attorney of Seattle. Mrs. Boeke was also given custody of the couple's little daughter, Beverly Ann Boeke, 9 years of age. Attorney Boeke and his wife were married at Seattle on October 1, 1919, according to the complaint. A property settlement was made some time ago out of court, Mrs. Boeke told Judge Guerin.

HIS SAVINGS TAKEN FOR RIDE

Cleveland Septuagenarian Loses Life's Hoarded Cash to
Two Suave Men Who Have "Sure Thing" in Bet;
One suspect Identified But Neither Caught

The story of a Cleveland man, past his three score years and ten, giving his life's savings to two suave confidence men was told to police yesterday. Both the latter are at large. One has been identified.

The victim is Joseph Mills, 75 years of age, who has been residing at 33 Club House avenue, Venice, since coming to Southern California to enjoy the late years of his life. He told his story to Detective Lieutenants Reed and Edwards. "I met this man, who called himself Alfred Bryant in Venice one day last month," said Mills. "He drew me around in his car. One day the other man, A. G. Schilling, walked by as Bryant and I were sitting on the beach. Bryant hailed him as an old friend from Oklahoma."

"After some conversation Schilling said he was employed by a large betting syndicate and was fixed to make a lot of money," said Mills. Then Mills recounted how Schilling and Bryant were supposed to have won \$25,000 in a week that followed. And how they told their victim they needed \$12,000 security

New Accusation
Aimed at Trio in
Extortion Case

Charges of attempted extortion against Thomas R. Hart, former deputy district attorney under the Keyes regime; Dr. N. L. Weiner, and an attorney, Elton R. Galukha, were dismissed yesterday by Municipal Judge Lahey at the request of Dep. Atty. Gen. Stahlman for the purpose of filing a new complaint charging all three defendants with conspiracy to commit extortion, a more serious offense. They are charged with conspiring to extort \$5000 from Fred Reed, proprietor of Los Angeles and San Bernardino sanatoriums, under threat of giving information to the State Medical Board which would result in prosecution.

Congratulations
Awaiting Judge

Judges and clerks of the Superior court and the many friends of Superior Judge Collier around the Courthouse are awaiting his return from Santa Barbara to congratulate him on the honor conferred on him at Washington on Tuesday, when he was given the Thirty-third Degree by the Supreme Council of Scottish Rite Masons of the Southern Jurisdiction.

O'DWYER WILL HEAD
CHARITY DELEGATES

Rev. Thomas P. O'Dwyer, director of the Catholic Welfare Bureau here, will head the Los Angeles contingent of delegates slated to leave shortly for New Orleans to attend the annual national conference of Catholic charities there November 10 to 14, next. As a member of the executive board of the organization, Father O'Dwyer will address the session on the development of foster-home care for children and present a report on Mexican immigration as it affects the social agencies in Southern California. Prevention of juvenile delinquency, protection of orphaned, dependent children, promotion of family and community health and the problems incident to the care of underprivileged children and adults are other subjects that will come up for discussion.

THE BEASTS OF TARZAN

By Edgar Rice Burroughs

So quickly had the beasts of Tarzan taken possession of the canoe that Mugambi had not noticed that it was already occupied. In the darkness the huddled figure sleeping in the bottom had escaped his observation. But no sooner were they adrift than a savage growling from one of the apes attracted his attention to the shivering and cowering native woman trembling between him and the great anthropoid.

With difficulty he kept the ape from her throat, and after a time succeeded in quelling her fears. Mugambi did not wish her presence, but was unwilling to lose time by returning her to shore. Downstream they swiftly paddled until the shadowy outline of the Kincaid loomed ahead. Just as he urged his creature to renewed efforts, the outline of another canoe burst suddenly into view not three yards from the bow of his own craft.

Just as the two dugouts were about to touch, a man in the oncoming boat challenged them, not recognizing the nature of the fearful crew. For answer came the menacing growl of a panther, and the fellow found himself racing into the flaming eyes of Sheeta, who had raised himself with his forearms upon the bow of the boat, ready to leap upon the occupants of the other craft. Instantly Rokoff realized the peril that confronted him.

(Continued Tomorrow)

He gave a quick command to fire, and it was this volley sent into the silent night toward the Beasts of Tarzan and the scream of the terrified native woman in the canoe with Mugambi that both Tarzan and Jane heard. Before the awkward apes, being momentarily dazed at the gunshot, could spring into the enemy canoe, Rokoff's men had turned swiftly downstream and were paddling for their lives in the direction of the Kincaid.

LIQUOR SUSPECT LAYS DOWN HAND

Accused Bootlegger Admits Guilt in Court

Federal Charge Compromised by Attorneys' Pact

Fine and Suspended Jail Sentence Imposed

Orville T. Forrester, asserted "big-time" bootlegger, lost his nerve yesterday after having gone to trial before a jury in Federal Judge James's court.

The asserted retailer of liquor to an extensive clientele in Hollywood and Beverly Hills, after four hours of trial, suddenly changed his plea of not guilty to one of guilty and threw himself on the mercy of the court.

Owing to the fact that two co-conspirators, Bruce Bannister and Dave Evans, had fled following their arrest last December, the government's case was asserted by William B. Gallagher, Assistant United States Attorney, to be rather weak. Forrester's defense was shaky also, his counsel concluded. Therefore, a compromise was arranged under which the defendant was fined \$500, sentenced to one year in the Los

AUTO LANE RIGHTS DEFINED

Center Driving Declared Permissible by Judge Under Conditions Set Forth at Hearing

A motorist has a right to drive in the center traffic lanes if he is traveling fast enough not to hold up traffic behind him, Traffic Judge Swain declared yesterday in finding L. H. Biggar, of 2484 Malden Lane, Altadena, not guilty of violating a section of the California Vehicle Act, which requires that automobiles be driven as near the right-hand curb as possible.

Judge Swain qualified his ruling by declaring that motorists are within their rights in using the center traffic lanes only when the right-hand lane is occupied and when they are traveling at a fast rate so that the vehicles on the right, unless the latter are sufficient in number to form a solid stream.

Biggar was arrested on Avenue Forty-three by Police Officer Capson on the 9th inst. while driving on a street-car track on the right side of the street. Capson contended that while Biggar was within his rights in using the car tracks for passing purposes, he should have returned to the lane nearest the curb on every possible occasion, in

Angelo County Jail, and placed on probation for a period of two years. Forrester is charged by Federal Prohibition Inspector Smith with being the head of a bootlegging "mob" which flooded Los Angeles with liquor in 1933. He has a police record. He shot a man in a "love trial"

Charges That Officers Aided Shoplifters to be Investigated

Charges that a shop-lifting ring has been operated out of Los Angeles under the protection of certain police officers are to be investigated by the grand jury today, it was revealed yesterday.

The inquiry was precipitated, it was learned, when evidence was found that three prisoners in the County Jail had been supplied with narcotics as a bribe for their silence regarding the workings of the asserted theft ring.

According to grand-jury investigators, the three witnesses were brought before the grand jury for questioning a week ago but refused to make any statements. At that time, it is asserted, they showed evidence of being under the influence of narcotics. The investigators suspect that the informants obtained the drugs while they were in the custody of certain police officers, taken from the County Jail under a court order ostensibly to assist in the recovery of stolen property.

The three prisoners were immediately transferred from their old cells and isolated and a search of their old quarters made. In one of them Mrs. Vada Sullivan, chief matron, discovered a match box containing a white powder and an emergency hypodermic outfit.

According to A. C. Ramsey, grand-jury investigator, the shoplifting ring operated in all of the large cities of the United States. The members of the organization would "work" one large town, move to another and then forward by express the loot they had obtained to Los Angeles confederates who would dispose of it.

NEW DAMSITE STUDY DESIRED

Aid of Group That Approved Forks Area Sought

Supervisors Expect Replies to Telegrams Today

Contractors Still Hopeful on San Gabriel Structure

The eight scientists and engineers who approved officially the Forks site of the San Gabriel dam before the extent of faults in the bedrock beneath the dam was made known by excavation, were notified by telegram yesterday of the County Board of Supervisors' action in employing them again at \$100 a day, to make another report "in the light of newly discovered engineering data."

Replies to these messages are expected by the board today. They were sent to Prof. Andrew Lawson, Prof. Charles D. Marx, Charles H. Paul, F. H. Fowler, Wayne Leel, J. B. Lippincott, D. C. Henry, J. W. Reagan, Prof. Allen E. Sedgewick, who reported unfavorably on the damsite to the contractors, also was sent a wire.

ATTITUDE IN DOUBT

None of those named has expressed either willingness or unwillingness to serve, according to members of the Board of Supervisors yesterday. It was pointed out that they may welcome an opportunity either to change their opinion in accordance with new facts, or to controvert the evidence on which recommendations against a high dam are based.

The dam contractors, Fisher, Ross McDonald & Kahn, have not yet given up hope of building the dam as proposed. It was stated yesterday.

GROUTING PROPOSED

GROUTING of ordinary fissures will make bedrock impervious to water, it is pointed out. Whether this could be done at the San Gabriel damsite is a matter of opinion. Attention has been called to the fact that the San Gabriel dam contract calls for 20,000 feet of grouting holes, more than are drilled in all the other damsites in Los Angeles county.

Supervisor Shaw will visit the damsite today to gather material on which to make a statement on the entire situation at the meeting of the Board of Supervisors tomorrow. Shaw has expressed himself, since the report of the engineers and geologists against the damsite, as opposed to building any kind of a dam there.

MASQUERADE ANNOUNCED

A Halloween masquerade dance will be given by the women's auxiliary of the Caledonian Club at 7:30 p.m. tomorrow in the Knights of Pythias Hall, 220 South Spring street. Six prizes will be awarded the wearers of the prettiest, most original and funniest costumes.

Practice flights and refueling contacts are on the air menu these days for Miss Bobbie Trout and Eleanor Smith as they prepare for their take-off next week from Los Angeles Metropolitan Airport on the world's first airplane refueling endurance attempt by women.

The two young pilots are getting in all the hours possible behind the controls of their Sunbeam biplane before the starter's flag sends them away on one of the most unique flights in air history.

While in the air yesterday aboard their green and silver ship the girls practiced changing shifts at the controls in the open cockpit near the tail of the plane and taking naps on the air mattress atop the special gasoline tanks in the closed cabin forward.

Carl Laemmle Returns From European Trip

Carl Laemmle, president of Universal Pictures Corporation, returned to Los Angeles last night from a European trip during which he surveyed the foreign market and conferred with Erich Maria Remarque, author of the war book, "All Quiet on the Western Front," which will be produced as a picture by Universal.

"Motion-picture conditions have never been better," said Mr. Laemmle. "We have had our greatest year. For the first time in Universal's history we will have two superpictures, 'All Quiet on the Western Front' and the Paul Whitehead 'King of Jazz Review,' in production at the same time."

"Our plans for four productions are so exacting that we will concentrate on them exclusively until they are completed."

"My trip to Europe and across America convinced me that the motion-picture industry has never faced a greater year than that before us. In Germany I conferred with Herr Remarque and only the illness of his wife prevented me from bringing him back with me to Universal City."

With all the fortune and fame that have descended on him since the publication of his book, I found him marvellously self-contained and very modest."

Mr. Laemmle stated that he obtained the motion-picture rights on all of Herr Remarque's forthcoming works, one of which will be published in the spring.

WARNER TO BE HONORED AT FESTIVAL

Traditional Jewish Fete of Simchas Torah Will be Celebrated Sunday

In commemoration of the traditional Jewish festival of Simchas Torah, a celebration attended by a large gathering of representative Jewish men and women of this city and the surrounding communities will take place at the Los Angeles Sanatorium at Duarte next Sunday at 6 p.m.

The affair, which will be given in the recreation hall, will have as its guest of honor Benjamin Warner, and many outstanding celebrities of the film world will be present to pay tribute to the father of the Warner brothers of motion-picture renown. The hall is being transformed into a gigantic tent of branches and fruits in stimulation of the traditional "sucoth" canopy and the program which will follow also will emphasize the traditional role, it is announced.

Among prominent members of the film colony who will attend are Al Jolson and Ted Lewis. Cantor Lubovicki, Cantor Harry Ershoff and Miss Sylvia Margolin will be featured in a concert.

Reservations may be obtained by telephoning the offices of the sanatorium in Los Angeles, it is announced.

Thundering Herd in Shape
for Title ContestSquad Will Enjoy Rest Up to
Start of GameLocal Grid Fans to Invade
Cardinal Stronghold

BY RALPH HUSTON

Grimsly determined to give their best, and equally determined that their best will be good enough to win, forty University of Southern California football players will board a Southern Pacific train at 7:45 o'clock and head for Palo Alto, where Saturday they will face Stanford's bone-crushing Cardinals in a game that probably will decide the national as well as the Pacific Coast championship.

COMPLETE SQUAD

Coach Howard Jones last night, after a lengthy practice session, announced the forty who would leave tonight. An additional eleven will go north tomorrow night, along with thirty-three members of the Spartan squad who have suffered long and nobly in the building of the "Thundering Herd." The list of forty includes eight ends, seven tackles, six guards, three centers, and one fullback.

BAGSHAW QUILTS AT WASHINGTON

Resignation of Husky Grid Coach is Accepted

SEATTLE (Wash.) Oct. 23. (AP)—The student board of control at the University of Washington accepted the resignation of Coach Enoch Bagshaw as head football coach at the institution today.

Bagshaw's resignation submitted early today, culminated a long controversy between members of the student body and the alumni on the one side and supporters of the veteran coach on the other. Demands for the resignation became more pronounced after the defeat last Saturday at Pullman of the University Huskies by the Washington State College Cougars.

Bagshaw will remain at the head of football affairs for the present season and will receive full compensation for the two years additional which his contract has to run.

Bagshaw submitted his resignation to Graduate Manager Campbell after an all-morning conference with Campbell and Ward Kumm, the coach's legal adviser.

A special session of the student board of control was called late today and the resignation was formally accepted by the body. The board also authorized Campbell to "take such steps as he deems necessary."

COACH BAGSHAW

ACE TO QUIT IF BEATEN

Hudkins Says He Will Retire from Ring if He Does Not Win Over Walker

BY PAUL LOWEY

Ace Hudkins will quit the ring if he is beaten badly by Mickey Walker at Wrigley Field next Tuesday night.

The challenger made this statement yesterday at his Bastanchury training camp.

He was unwinding the tape from his hands after finishing a brisk six-round sparring session—the first boxing he had undertaken in two days.

The Wildcat has been on the razor edge for days, and he cannot afford to box every day for fear of going stale.

But yesterday he tore into his sparring partners like the Wildcat of old—the Wildcat who beat Sammy Lacer in the fiercest fight ever seen in this city, and who made a chopping block of Armand Emanuel and who stopped Joe Anderson in six rounds.

BATTERS SPARRING MATES

There has been some talk of Hudkins already going stale, but he disproved this yesterday by the manager in which he rattled his sparring partners.

And he is so confident of beating Walker that he has signed for a ten-week vaudeville tour as middleweight champion of the world.

In the event that he misses his opportunity—he lost to Walker at Chicago a year ago.

STANFORD PROTESTS SEATING

Card Rooting Section May be Drowned Out by Trojan Group Placed Near by

STANFORD UNIVERSITY, Oct. 23.—Three hundred and fifty Trojan rooters will have the unique opportunity of seeing Saturday's game from the Stanford side of the stadium here in a block of seats two sections removed from the Stanford rooting section. Because the University of Southern California fans are determined to make the Trojan the Trojan because of that 48-0 win over W. A. H. H. And meanwhile, the Trojan is preparing something for the Trojan Thundering Herd.

You can hear plenty of rumors around as to what Warner is doing up and out of the dozen or more, probably one will be right. At any rate, Warner is sure to have something to pull out of the bag if the Cards get to within scoring distance, and find the Trojan defenses suddenly getting tough.

Warner almost had heart failure today, when he discovered that four of his players were under medical supervision, but Dr. Fredrich Roth, team physician, said that they would all be in shape to play Saturday. Herb Fitchbacker is resting in a hospital with an injured right leg, but is expected out for practice tomorrow. "Ham" Wilson, who is the major-league home-run king after Babe Ruth gets through.

Fox, although just past his twenty-second birthday, ranked second to Ruth in the American League home-run race this season by rapping some thirty-eight balls out of the lot and continued his four-base clouting proclivities into the world's series by homing twice. And both of Fox's world's series homers, by the way, paved the way to victory for the Athletics in the first two games.

It would be rather a coincidence should Fox fulfill the claims of his followers and replace the Bambino as the home-run king for there's a decided likeness in the facial appearance of the two. Both have "moon" faces, but Jimmy is considered much the better looking of the two by the fair sex.

Fox is not quite as large as Ruth, scaling 190 to Babe's 220 and being three inches shorter, but he's a well-set up young man and can sock 'em as far as anybody in the national pastime. Fox's biggest handicap in his quest for the home-run king is that he bats from the right side of the plate. Right-hand hitters nearly always send

NORTHERN FANS ARGUE OUTLOOK

Cards Train in Secret for Trojan Contest

SAN FRANCISCO, Oct. 23. (Exclusive)—While football fans in Southern California are busy trying to make Stanford a favorite for Saturday's game because of the 40-7 victory over Oregon State, local grid followers are equally ambitious to make the Trojans the Trojan because of that 48-0 win over W. A. H. H. And meanwhile, the Trojan is preparing something for the Trojan Thundering Herd.

You can hear plenty of rumors around as to what Warner is doing up and out of the dozen or more, probably one will be right. At any rate, Warner is sure to have something to pull out of the bag if the Cards get to within scoring distance, and find the Trojan defenses suddenly getting tough.

POP WARNER

SHAWKEY SIGNS UP FOR YEAR TO BOSS YANKEES

NEW YORK, Oct. 23. (AP)—Fighting the age-old jinx which usually has prevented a major league pitching star from becoming a successful manager, Robert John Shawkey plunged squarely into the task of rebuilding the Yankees today immediately after signing a one-year contract to pilot the club.

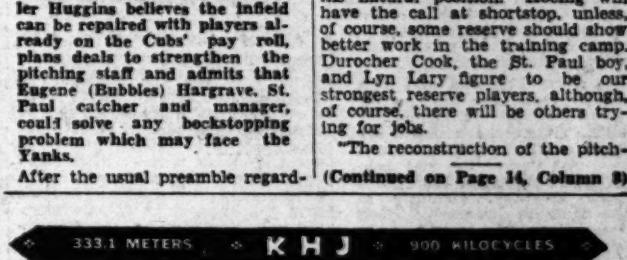

The successor to the late Miller Huggins believes the infield can be repaired with players already on the Cubs' pay roll, plans deals to strengthen the pitching staff and admits that Eugene (Bubbles) Hargrave, St. Paul catcher and manager, could solve any backstopping problem which may face the Yanks.

After the usual preamble regarding how overwhelmed he was at "exceeding his ambitions," by becoming manager of the Yankees, Bob the Gob, said:

"The infield can be rebuilt with players we now have. I am going to try Lazzeri at third if his arm has mended sufficiently for him to make the long throw, and will try Jimmy Reese of Oakland at second, his natural position. Koenig will have the call at shortstop, unless, of course, some reserve should show better work in the training camp. Durocher Cook, the St. Paul boy, and Lyn Lary figure to be our strongest reserve players, although, of course, there will be others trying for jobs.

"The reconstruction of the pitching staff will be a long job."

BEARS WELCOMED HOME AND THEN PUT TO WORK

BERKELEY, Oct. 23.—Join's stiffened from several days of training were given an airing this afternoon at the practice field by the University of California football varsity, home again after a triumphant trip east to battle with the University of Pennsylvania. A tremendous ovation was tendered the grid warriors and Coach Clarence (Nibs) Price by students assembled at the great Campanile clock tower just before lunch today.

With the exception of Harry Gill, guard, the team is in good shape. Capt. Roy Riegels, Clarence (Moose) Garrity, Ed Griffiths and Lee Egan are all practically recovered from their hurts and will doubtless be in condition to give the Trojans battle a week from Saturday. As to the game Saturday with the San Francisco Olympic Club there is much speculation.

In today's practice, Price gave his first and second-string teams a very light workout. The third and fourth strings, which did so well against St. Ignace College, were worked harder. It may be that Price will use the reserves at the sacrifice of victory. There is also a current rumor that Price wants to win the Olympic Club game and will start the regulars, jerking them in two eventualities. First, if the going gets too rough and second, if the game can be won by the second, third and fourth-string squads.

The public favorite fullback, Ralston (Rusty) Gill, the most aggressive sophomore that has graced the California football field in many years, may get his big chance Saturday. Gill

FOXX HAILED AS COMING HOMER KING OF MAJORS

BY BOB RAY

Who'll be the major-league home-run king after Babe Ruth gets through?

Last year the fans probably would have answered "You Gehrig" inasmuch as he rapped out about forty-six circuit clouts and for a time set the pace in a thrilling homer duel with the Bambino, but now an American League slugger, as the man who'll succeed Ruth to the throne of Sultan of Swat.

Fox, although just past his twenty-second birthday, ranked second to Ruth in the American League home-run race this season by rapping some thirty-eight balls out of the lot and continued his four-base clouting proclivities into the world's series by homing twice. And both of Fox's world's series homers, by the way, paved the way to victory for the Athletics in the first two games.

It would be rather a coincidence should Fox fulfill the claims of his followers and replace the Bambino as the home-run king for there's a decided likeness in the facial appearance of the two. Both have "moon" faces, but Jimmy is considered much the better looking of the two by the fair sex.

OFFICERS SEEK TRIAL WITNESS

Warrant Issued for Former Angeleno Policeman

Perjury Charge May be Laid Against Missing Man

Ordered by Court to Wait, Suspect Walks Out

Louis Nash, former Los Angeles police officer, was sought by District Attorney's investigators last night under a "forthwith" subpoena after he had finished testifying as a character witness in the trial of Walter E. (Bob) Evans and Miles H. Ledbetter, on trial before Superior Judge Doran charged with extortion and acceptance of a bribe.

The subpoena was issued by Judge Doran at the request of William McKay and Fred Shelly, Deputy District Attorneys prosecuting the case, after the discovery of an asserted discrepancy in Nash's testimony.

According to McKay Nash left the witness stand under orders to remain in the courtroom until he was recalled for re-examination. When his name was called later, it is charged, Nash had left the place.

When the former officer is found the prosecution will attempt to show that he evaded the truth when asked on the witness stand if he ever had been convicted of a felony. Nash denied that he had, according to McKay.

Another character witness for the defendants yesterday was Nick Oswald. Both of these witnesses, McKay asserts, formerly occupied positions on gambling ships which operated off the Southern California coast a year ago.

Earlier in the day Capt. Tom O'Brien, chief of the District Attorney's bureau of investigation, testified as to the good character of Evans.

Evans was on the stand yesterday when court opened and answered questions under cross-examination for more than an hour. Ledbetter is expected to take the stand today in his own defense.

From present indications all evidence in the case will be in when court adjourns tonight, but the arguments will be deferred until Monday. The defendants are represented by S. W. Thompson and Stanley Visel.

French Scribes Due Here Today for Studio Visit

Seven leading newspaper men of France will arrive in Los Angeles this morning as guests of the mount Famous Lasky Corporation to study American motion-picture production methods.

The writers include Jean Masco of Le Journal, Maurice Huet of Le Petit Parisien and Cline Miroir, Henri Regnier of Excelsior, Gaston Talley of Paris-Midi and Cline Mode, Paul Achard of Ami du Peuple, Louis Delaplace of L'Intermédiaire and Four Vows and Rene Lebrun of Comedie.

According to announcement yesterday, the party will be in charge of Richard Blumenthal of Paramount's foreign department and E. Darbon, publicity manager for Paramount in Paris. The journalists came to this country with Maurice Chevalier. They will be honored with a luncheon at the Paramount studio today, while a theater party is arranged for this evening.

The balance of their three-day visit will be spent in visiting studios as a luncheon at Metro-Goldwyn-Mayer. A banquet has been arranged for Friday night by Fred W. Beeson, secretary of the Association of Motion Picture Producers.

MORE ACTS BOOKED BY SOCIETY CIRCUS

Noted film actors are announced to perform at the Beverly Hills Society Circus showing tomorrow and Saturday nights and Saturday afternoon at Wilshire and Santa Monica boulevards. The Beverly Hills Chamber of Commerce is sponsoring the circus in addition to the cinema attractions will be Bolger's fashion revue with ninety mannequins, fancy acts by equestrians, an act by Los Angeles Athletic Club tumblers, two acts by the Masquers, a Fanchon and Marco girl act, as well as professional numbers by many local organizations.

NEW ARRIVAL FINDS GRANDFATHER TWIN

Superior Judge Crail smiled happily yesterday amid the dismal work of settling estates and divorces when he learned that the dead He left the Courthouse a father the night before and yesterday he came down to work a grandfather. The child, a daughter, was born to Mrs. Hugh W. Evans, 237 North Arden Boulevard. She is somewhat distinguished by the fact that her grandfather is a twin, the other member of the team being Congressman Joe Crail.

WOUNDED SPOUSE PLEADS FOR HER

Mrs. Lavera Howard

WIFE HELD IN SHOOTING OF HUSBAND

Victim Lays Her Action to Nervous Disorder and Opposes Prosecution

Though suffering from a bullet wound in the abdomen inflicted by his wife, according to police, Frank P. Howard, 37 years of age, Chinese-born, yesterday pleaded with police not to prosecute her, according to Captain of Detectives Cato.

On his bed in the Georgia-street Receiving Hospital following a major operation, Howard declared, according to Cato, that his wife has been suffering from a nervous disorder recently and that he does not hold her responsible for her actions.

In the light of this statement Capt. Cato took the wife, Mrs. Lavera Howard, 41, to the hospital and gave the couple an opportunity to become reconciled. The meeting proved unavailing, however, whereupon Mrs. Howard was lodged in the County Jail on a charge of assault with a deadly weapon.

The shooting occurred at the Howard residence at 4433 Burns avenue yesterday morning. Mrs. Howard told detectives she and her husband had been living in different parts of the house recently because of disagreement. She stated, according to the detectives, that after drinking heavily he had threatened her.

Howard declared that he merely sought to talk with her regarding her proposed action in filing a separate maintenance suit.

Wilshire Group Offers Plea for New Type Signal

The matter of providing a new type of co-ordinating traffic signal system for Wilshire Boulevard was considered yesterday afternoon by the Council's Traffic and Lighting Committee and then referred to the Committee of the Whole.

The question was presented to the committee by Robert S. Breyer, president of the Traffic Commission; F. W. Breyer, Wilshire Boulevard Chamber of Commerce, and Herbert M. Bigelow, vice-president of Bullock's.

The Wilshire people want a co-ordinated system with bull's-eye lights, a master control and safety islands.

R. T. Dorsey, chief of the traffic police, explained the cost of the signals at \$70,000 for twenty intersections.

Aircraft Show Books Exhibits

Fifty-two airplanes are to be displayed at the Western Aircraft Show during its nine-day run here beginning November 9, it is announced by Director Cliff Henderson.

These planes range in size from the smallest two-seater to the giant tri-motored eighteen-passenger transports. Their total value will approximate \$1,000,000. The show also will include a display of aeronautical equipment totaling \$1,000,000.

Planes entered represent practically every important airplane manufacturer in America and several foreign countries. The public will be allowed to sit in most of them. Experts will explain the mechanism of the ships and the use of the various aeronautical equipment accessories.

WOMEN TAKE HORSE ON JOYRIDE

Daring Equestriennes Load Trick Mount Into Trailer and Brave Desert in Second Hand Car on Trip to El Paso

By a "Times" Staff Correspondent
Santa Monica, Oct. 23.—Some-where out in the desert on the road to El Paso, Tex., Miss Audrey Scott, equestrienne whose daring feats on horseback have thrilled thousands of spectators at steeplechases and polo games at the Uplifters' Club, and Mrs. Rose Baker, also famed as a horsewoman, are driving a second-hand automobile pulling a trailer which bears "Desert Gold." Miss Scott's horse, they left the Uplifters' stables early last Sunday morning, bound for El Paso, and their feat is regarded by their polo-playing friends here as "a bit daring." Snowy Baker, widely known sportsman and polo player, said today that while he had received no word from Miss Scott, he could see no reason for undue worry.

"Miss Scott and Mrs. Baker can get away with adventures very few women could tackle safely," he declared. "They know how to handle horses."

The chief cause for concern felt here was that the high-strung horse might become difficult to handle after a day or two of repeated loading and unloading of the trailer, and the young women would find themselves in something of a predicament if Desert Gold should re-

RICHARD ARLEN IN RACING STORY

Robert Ames Opposite Vilma Banky for M.-G.-M.; Goldstone Plays Pictures at Tiffany-Stahl; "Lammox" Produced in German

BY GRACE KINGSLEY

Richard Arlen will be elevated to motion-picture stardom at a rapid rate, it was indicated yesterday in an announcement by Jesse L. Lasky to the effect that the young player's initial stellar vehicle will be the first automobile racing romance to be brought to the screen with full sound and dialogue.

In the story, an original by William Slavens McNoon, and the role of a mile-a-minute road-burner and Romeo, and the idol of his affections is to be Mary Brian, his leading woman in "The Man I Love" and the pivotal feminine figure in "The Virginian."

Edward Sutherland will direct, according to further information. To Sam Hardy has been given the part of Burman, enterprising, but crooked, race track promoter, Arlen's last for Paramount was the role of the baseball manager in "Fast Company." Charles Selton has another important role.

ROBERT AMES PLAYS LEAD IN M.-G.-M. FILM

To Robert Ames, the New York stage star with the distinctive Irish grin, has fallen another important role.

The young actor has been engaged by Metro-Goldwyn-Hollywood to produce the masculine lead opposite Vilma Banky in "Sun-Kissed" for which feature Metro-Goldwyn has borrowed Miss Banky from Paramount Goldwyn.

Ames has recently completed a similar role in "The Treadmill," and with Constance Bennett in "Rich People." Before that he was featured by M.-G.-M. in Willard Mack's "The Voice of the City" and "Confession."

Victor Sessatoff will direct Sidney Howard's script.

Grant L. Cook, vice-president of Tiffany-Stahl Productions, announced that Phil Goldstone, well-known Hollywood producer, and A. P. Younger, who formerly made such pictures as "Wild Geese," "Souls for Sale" and "Garden of Eden," are again together at the Tiffany-Stahl studios, and will make a series of six productions to be released through that organization. The first of these will be a musical version of Tolstol's "Resurrection."

Sheets Gallagher With Lasky
Richard Sheets Gallagher, Broadway musical comedy and vaudeville comedian, has been placed under long-term contract by Paramount. It was announced yesterday.

The contract is the result of Gallagher's work in the recent all-talking pictures, "Close Harmony," "Fast Company" and "Pointed Heels."

Gallagher is well known to New York musical comedy and to vaudeville, in both of which mediums he has been starred. His first attracted film attention as the irrepressible reporter in the Thomas Meighan starring picture, "The Racket."

Monte Blue to New York
Monte Blue and his wife are leaving for Seattle today, for a visit to friends there.

Following this visit, within a couple of weeks, Mr. and Mrs. Blue will travel to New York for a vacation. Blue is in the new plays, Blue says he is very tired from the long strain of his work, not having enjoyed a vacation in some time.

"Lammox" Made in German
All our picture stars had better become linguists, it appears to me. Now it is a German version of "Lammox" which has been made by United Artists, and which will be shown not only in Europe but in American cities which have large German-speaking populations, according to announcement made yesterday by John W. Considine, Jr., general in charge of the executive at the United Artists studios.

The German interpretation of

Brenon's picture, with names of German actors given on the cast credits, is the work of Friedrich Zeinik, who directed Emil Jennings and other stars abroad.

The German version of "Lammox" includes among the players Gerda Mann, Lena Malena, Johanna Hagen, Walter Bonn, Auguste Burmeister, Kurt Herrfeld, Barbara Leonard, Paul Weigel and Costas Moch.

Hoboken will see the premiere of the German version, which will afterward be shown in New York, Milwaukee and Cincinnati.

Mabel Normand Writes
The good news brought to us from Pottinger Sanatorium, conveyed in Mabel Normand's own handwriting, that the noted comedienne is improving slowly but surely.

However, she is not yet allowed to see many visitors, so the flowers which Mary Fund and a novel, and took to her the other day could not be delivered in person. Mabel writes: "Thanks a lot for the lovely flowers from you and Mary. You are so busy it was good of you to think of me. The doctors here tell me that I am gaining weight. Anyway I am doing everything I am told. I want to get strong so I can get back and have a lot of visits with all the girls."

Kohner's Brother Arrives
Arriving on Monday from Europe with Carl Laemmle, president of Universal, was Dr. Frederick Kohner, brother of Paul Kohner, associate producer at Universal City.

Dr. Kohner is a doctor of philosophy, a graduate of the University of Vienna and of the Paris Sorbonne. He has published a number of short stories and a novel, and it is understood that he will probably do some writing for Universal. He will also represent a number of leading German newspapers, including the Scherl Verlag of Berlin.

Two Paramount Stars Return
Two of Paramount's most important stars have returned from Europe. They are Evelyn Brent and Neil Hamilton, both of whom returned home Tuesday night.

Neil Hamilton, it isn't certain yet in what either will appear next, several stories being under consideration for each. Miss Brent visited Berlin, Paris and London, with Neil Hamilton, and both about the same ground. Both have been away since August.

Hamilton was accompanied by his wife, Louise Fazenda to Travel.

Speaking of travel, Louise Fazenda and her mother are planning a trip to New York about the first of November. This will be Miss Fazenda's first trip away from home and work since her Alaskan voyage last spring.

Wife Divorces Asserted Scion of Composer

Following a contest that lasted two days, Mrs. Jess Schubert was granted a divorce yesterday from Frank William Schubert, who says he is a descendant of the great composer of that name. The decree was signed by Superior Judge Haslett. Mrs. Schubert accused Schubert of striking her. He denied the charge in an answer and cross-complaint. The cross-complaint, however, was stricken from the files after the hearing got underway.

Mrs. Schubert was granted the custody of little William Frank Schubert, 3 years of age. She also was awarded money for the child's support.

Schubert formerly was in the music business in Los Angeles. The couple married five years ago in Orange county.

MARRIAGE

Y **Justices Won't**

Ruling of Appellate Court
Unhindered

Demurrer to Complaint

- SAN BERNARDINO
Gratuitous, gift, New
money is accepted in
the peace and econo-
mies in California and
owns in the country
to the money as public
was the decision made
District Appellate Court
on the former Orange
rage fee case.

The Appellate Court
affirmed the judgment
Judge James, who
country in sustaining
mutter to a taxpayer
meeting him, and
Peace Kenneth S.
Santa Ana to turn the
treasury his, and
pronouncing wedding
George S. Richards,
county treasurer, who
noted case for him
taxpayer to appeal to
Judge Alvin Smith in
for a writ of habeas
dispositive.

The Appellate Court did not
deeply into whether it was
improper for Lewis to
accept money for marriage
couple. "The only ques-
tion," the court found, "is
whether a justice of the peace is
compelled to turn over such
money to the county treasury,
or whether he is at liberty to
pay it to a justice of the peace
for his services. If the latter,
still there is no law requiring
payment to the county."
The District

1918 omitted from the former section fixing a marriage performed in the peace, no fee of any kind this service has been made.

The fact that certain of the California statutes and other officials is the and would that the
